

Las Vegas Family Church Shine City Wetlands Park Project report

Ken Doo
October 9, 2021

On October 9, 2021, Shine City Project returned to Wetlands Park! For this service project, our Shine City Project volunteers welcomed members of CARP Las Vegas and Generation Peace Academy (GPA)! Our nineteen volunteers helped to pick up litter along a section of the Wetlands Loop Trail.

It was challenging at first to retrieve litter near the water channel, but with some perseverance and effort, we were able to carefully make our way to the litter and fill our bags!

During the service project, several of our volunteers also caught a glimpse of a couple coyotes! Fortunately, the coyotes didn't have so much interest in us and we could observe them from a safe distance. It's surprises like these that remind us that there is life in the Mojave Desert!
