October 29, 2022

On October 29, 2022, Shine City Project cleaned up at the corner of Las Vegas Boulevard and Windmill Lane! Our team of seven volunteers helped to pick up an assortment of items that mostly came from places that were nearby such as 7-Eleven, CVS Pharmacy, and Starbucks.

Some of the more common items were plastic water bottles, fountain cups, alcohol bottles, and Starbucks splash sticks.

We also found some unusual items such as a car seat controller and an application document for domestic violence. One of our volunteers even found a one-dollar bill! At the end of the service project, our volunteers filled up seven bags of trash!
