

FFWPU International: Message to Blessed Families and Members

Doo Seong yeon
September 23, 2025

As the Director of the World Mission Headquarters, I have spoken... There have been so many tears flowing in my heart that it seems the tears in my eyes have dried up. On behalf of the Central Administration of the World Mission Headquarters and the leadership of the Future Talent Development Center, I deeply feel that I have failed to truly protect and properly serve True Mother, and I realize that I am truly a sinner. Therefore, I sincerely apologize in front of the family members and ask for your forgiveness. On behalf of the headquarters, I wish to ask all of you for forgiveness.

The time we gather together holds truly special meaning. As you well know, True Mother is now going through a period of profound and arduous patience, heavier than anyone else's. At this first gathering arranged since True Mother's liberation, we cannot help but think of True Mother with even more earnest longing, deep reverence, and from the perspective of children who have been unfilial and disloyal. True Mother has always instructed us not to pray or worry for her own sake, but rather to devote our sincerity and prayers for the sake of our families, communities, and the will of our Heavenly Parents. Walking the path of suffering, she ultimately thinks of us first and continues advancing toward her mission, and witnessing this tears at our hearts. Therefore, I believe that today's gathering is a moment to deeply understand True Mother's heart, to pledge with one united mind to open the way forward, and to make a sacred promise. I believe that the first step of becoming one with True Mother is, in essence, becoming one with True Mother's words.

On September 21, True Mother, anticipating that the same standard would face a crisis, instructed us to establish a society of participating families centered on the Cheon Hye Special Winners and the True Parents, and to move forward united around these individuals. In response, this morning, through our meeting, we gathered opinions centered on the Cheon Hye Special Winners and the society of participating families, and made the following promises to the family members:

First, the leadership, having failed to fully serve True Mother in Holy Mode, deeply acknowledges this and pledges to serve wholeheartedly with loyalty.

Second, we promised to promptly organize and announce the Family Federation Representative Council centered on the Cheon Hye Special Winners and the society of participating families.

Third, all family members worldwide will unite with the Cheon Hye Special Winners to overcome the current situation.

Fourth, until the day we can properly serve True Mother, all progress and developments will be shared transparently with the family members.

Today's gathering will serve as the first step in fulfilling this promise by myself, all administrators, and family members. At this time, when True Mother has proclaimed the beginning of a new era and a new history, introducing to you the grandchildren of the participating families and missionaries - the Cheon Hye Special Winners - is, I am confident, the mission of this year's evangelization.

After the victorious entrance ceremony at Cheonwon Palace in September, True Mother proclaimed the beginning of a new era and a new history, and announced the Cheon Hye Special Winner families at the center of this era. Leading up to this day, True Mother has long nurtured the missionaries with utmost sincerity and love, guiding them faithfully in their mission.

Dear family members, we are currently experiencing a challenging and difficult time. Yet, True Mother continues to advance the providence without wavering. The Cheon Hye Special Winners present with us today are the precious fruits borne from True Mother's dedication, tears, and sacrifices. Therefore, we must not see them merely as grandchildren of the True Parents. Rather, they should be regarded as official leaders established through True Mother's faith and love, and as new hope for the providence.

If the devotion and hearts of each family member unite, and if we move forward as one brotherhood, one team, serving True Mother, I am confident that our community will experience unprecedented hope and abundant fruits.

Following this program, we would like to invite the Cheon Hye Special Winners, who have faithfully upheld the True Parents through their faith, to the stage. We would be grateful if you could warmly welcome Cheon Hye Special Winner, Moon Shin-sil, with a round of applause. Thank you."
