National joint worship service held at the Yopougon Hyojeong Temple in Côte d'Ivoire, March 15

Strengthening Community Solidarity and Faith Practice

On March 15 (HC 1.27), a national worship service with the theme of creating a community of joy was held at the Yopougon National Hyojeong Temple in Côte d'Ivoire.

About 400 members attended.

The National Leader offered words of encouragement and presented certificates of appreciation for members' outstanding dedication in public missions.

Following the service, a bazaar was organized as an expression of community sharing.

With several churches being commended for their witnessing and church growth activities, members determined to continue as a community.
