Reflections

Namfon Saensaard, 1st 21-Day Spiritual Growth Workshop Graduate, HTG AP 2nd Batch

Looking back over the past 4 years, I truly feel that my life has been protected by Heaven. No matter how difficult things were, Heavenly Parent always guided me. I once heard True Mother say that we should be like "pure water." And I kept thinking about this. I asked myself, "What does it really mean to be pure water?" Because I didn't want to be that way just because of my name. My name, "Namfon," means rain, and "Saensaard" means very clean, which means pure water in Thai. So I kept wondering how can I truly become like pure water? Especially last year, after I joined the 21-day spiritual growth workshop in the Philippines, I felt very clearly that I want to offer my life 100% to Heaven's providence. I started by liberating 13 center evil spirits. During that time, I faced many challenges, but after completing all 13, I felt a big change within myself, my mind became more peaceful, and I became a much more positive person.

In my first year of faith, I was very afraid of the spiritual world. Sometimes I felt like something was disturbing me. I shared this with my leader, and they advised me to wear an "참부모님" necklace. After I wore it, those experiences stopped, that helped me trust this path more. But still, there were moments when my heart felt very confused. I didn't know which direction was right anymore. But instead of running away from those questions, I decided to face them. So I chose to pray sincerely. One day, in the CSW prayer room, I clearly heard one word in CSW: "Missionary" ... three times. Even though I didn't fully understand it at that moment, that word stayed in my heart. In my first wish paper, I wrote, "Please guide me, and let me become a missionary." And today, I have applied to join the HTG Missionary Top Gun Asia Pacific program for one year. Even though I'm not fully confident in myself, I truly have the determination to follow Heaven's calling and guidance.

Siraprapha Maglangit, Senior Pastor, Antipolo Church

At the beginning, I thought twice about attending because my husband said that this time we should not spend much money. But I am here because I believe True Mother is happy when we offer ourselves sincerely. I also strongly felt that I needed to come as part of my responsibility and duty. I have a mission in Boin Bujang at Antipolo Church, and I am also supporting my husband in his mission as he works for the legal affairs of our church.

My determination for this Spiritual Growth Workshop is to do my very best to make this workshop successful and to offer my devotion to Holy Mother Han. I also want to make good conditions and constantly offer prayers until I can hear God's voice and True Parents' voice more clearly. I am determined to do my very best during Chanyang so that evil spirits can be removed, for me to become healthy, and to continue moving forward for the providence.
