August 23, 2026

Participants of Pure Water Assembly 2026 spent three days at Mona Yongpyong in Pyeongchang, Gangwon Province, from August 21 to 23, taking part in a variety of activities and cultural programs while building stronger bonds with one another.

Divided into the P·U / R·E tribes, participants enjoyed a range of activities at Mona Yongpyong, including a visit to the InArt Museum, all-season sledding, the Balwangsan Cable Car, and trekking.

Although some activities were rescheduled due to rain, participants adapted to the changing weather by completing photo missions and enjoying attractions such as the luge and mountain coaster. Those who were unable to take part in outdoor activities spent time together indoors, watching movies and enjoying the game center, bowling, and billiards.

In the evening, a music competition gave participants the opportunity to take the stage and showcase their singing. Following the awards ceremony for the photo contest and recreational sports event, four teams competed in a tournament-style singing competition, with each distinctive performance drawing enthusiastic cheers and support from the audience.

A praise and prayer gathering followed, bringing participants together through songs in Korean, Japanese,

English, and other languages. Participants sang a variety of praise songs together, sharing their hearts through praise and prayer.

With their arms around one another, participants continued singing and praying together, sharing a sense of brotherhood and sisterhood beyond differences in nationality and language. After three days of experiencing nature, culture, and fellowship at Mona Yongpyong, they concluded the program by uniting their hearts through praise.
