One Human Family, United Through Literature

From October 7 to 11, members of the Family Federation in Germany participated in the 2026 Frankfurt Book Fair, introducing visitors to True Parents' lives, achievements, and vision for peace.

The exhibition booth featured True Parents' memoirs and speeches, including Mother of Peace, along with Divine Principle and multilingual publications on family values, youth education, interfaith dialogue, and peacebuilding.

Visitors explored books available in German, English, French, Korean, and Japanese, engaging in meaningful conversations with representatives about the importance of family values, spiritual principles, and their application in modern society.

The book fair provided a valuable opportunity to share True Parents' vision for peace, foster cultural and interfaith exchange, and promote the ideal of one human family.
