Educational Journey and Growth

Field Experience and Looking Ahead

Field teams noted a remarkably warm response and openness among newly contacted participants - particularly the youth. Many seminar attendees expressed a strong desire to continue their spiritual journey and step into the next phases of Divine Principle education.

The success of these 70 days demonstrates the immense potential for witnessing and education in the Republic of the Congo. As local leaders and members continue their follow-up and care for those who were contacted, the momentum created during this mobilization will serve as a strong foundation for ongoing growth and spiritual revival.

"Beyond the numerical results, this condition provided an opportunity for members to practically experience the heart of Heavenly Parent through meeting and accompanying new people."
