

CARP Las Vegas held our second ever Tribe Talk on Original Value

Ken Doo
September 15, 2016

On Thursday, September 15th, CARP Las Vegas held our second ever Tribe Talk. Every week Tribe Talk is held to encourage UNLV students to pursue their spiritual growth through engagement with Unification Principles and through experiencing the supportive family culture based on True Parents' teachings. This week, the theme was on "Original Value." Participants faced the reality of our tendency to seek value from temporary and fleeting sources, and to recognize that we have been born with unique value from God. In attendance were 10 guests, 12 CARP members, and 6 members of the Las Vegas Family Church.

We are very excited for the new tradition that we have established through our Tribe Talk program. Through it, guests who meet CARP for the first time can experience the power of the Principle, and a family culture of acceptance that encourages each individual's spiritual growth in order to fulfill their potential. We are looking forward to many more Tribe Talks in this semester and semesters to come!
