

## Why do we need witnessing activity in our lives?

Ken Doo  
February 9, 2018

Door to door witnessing is a way to meet new people. Even though most people did not welcome our visit (more than 80% of them closed their doors), it was through our witnessing experience that we could feel how precious those people are who did welcome us. It felt like finding an oasis when travelling through the desert!

Also, through this witnessing experience we could realize the preciousness of the new guests who visit our church on Sunday morning. Often, when new people visit the church, we ignore them because their faces are unfamiliar, but if we have an experience of door to door witnessing, we will not be able to treat the guests who visit the church indifferently.

Witnessing is a powerful way to realize again the preciousness of man, the preciousness of man who was created by God.
