September 28, 2019

5th Campus Talk: Challenging Our Hyper-Sexualized Culture

Objective of Campus Talk:

- Solidifying and expanding the group of students, faculty, and community leaders who are dedicated to practicing and spreading the lifestyle of sexual integrity as a solution to complicated and destructive issues of our society (not just as a religious practice or spiritual discipline) --
- *Increasing the awareness of life of sexual integrity as a doorway to higher and more fulfilling relationships of lasting love.*

EXPECTED OUTCOME:

- **ENCOURAGED:** Students feel PROUD and ENCOURAGED about their choice to live a life of sexual integrity, or FEEL ENCOURAGED to try this lifestyle.
- **CLARITY:** Participants *have gained conceptual understanding* that life of sexual integrity will bring about significant positive impact and consequences to them as well as to our families and community.
- **HOPEFUL** - Participants have gained a sense of HOPE that life of sexual integrity (and intact family) can actually make a huge difference and significant impact in our community.
- **READY TO ACT** - Participants feel EXCITED TO SPREAD the message of life of sexual integrity (and intact family) as a solution to the issues our community is facing.
