Dear

We encourage you to register and mark your calendar for this presentation and discussion meeting on human spirituality, co-hosted with HJI Graduate School of Peace and Public Leadership.

The diversity of New Testament Christian theologies are prone to criticism, especially by non-believers, as being individualistic, otherworldly, belligerent to other faith systems and therefore incompatible with creating a world of peace. In the post-Protestant world,

contemporary theologies must respond to such critiques to offer formulations that build harmony rather than boundaries.

Theodore Shimmyo, the leading theologian of Unificationism, will offer a simple but scripturally rooted understanding of human spirituality that is responsive to the expectations of imperative of creating a world of peace.

Please join us on October 7 to learn and discuss a contemporary understanding of human spirituality.

Sincerely,
James B. Edgerly
