Dig Deep into the Word.

Pyeong Hwa Gyeong – Part 2

- *The mission of religion*
- *The True Family movement*
- *True Parents' eternal message*

One of Mother Moon's great contributions is the compilation and fresh translation of three volumes of key texts from True Parents' sixty-year ministry. Her great desire is that we dig deeply into the living word of God. To meet this pursuit, the Family Federation for World Peace and Unification (FFWPU) USA and the Unification Theological Seminary are launching the scriptural study of True Parents' words with the study of *Pyeong Hwa Gyeong*.

Dr. Tyler Hendricks, former president of HSA-UWC USA and of the Unification Theological Seminary, will guide you through a five week in-depth study of the living Word. You will gain revelations and inspirations that you never could have imagined from True Parents' speeches. Reflect on the deeper message of True Parents as they address the topics of religion and marriage. What is the responsibility of religion at the Second Advent? What is Father Moon's message to Islam? To intellectuals? To the interfaith community? What does the equality of man and women look like? What is the role of marriage and the Marriage Blessing of the Unification tradition in today's world? How do True Parents restore the love of man and woman, really?

Take this opportunity to work through the texts, record your reflections, and explore your heart. Here's what students gave as their takeaways from Dr. Hendricks's last Pyeong Hwa Gyeong study class:

"The big picture of True Parents' lives and God's providence. Stunning."

"The way you opened up True Parents' words in a more comprehensive way."

"Timelines of True Parents' events and how they all make sense."

"It's wonderful to see the big picture of Father Moon's words. Dr. Hendricks has done an amazing job of pulling the Pyeong Hwa Gyeong content together."

"How the seed of God was given to Jesus."
