

You're invited to the Congregational Development Course

Jaga Gavin
April 25, 2016

Join Dr. Luonne Rouse in our upcoming five-week course on Congregational Development.

Equipping your congregation to serve and invest in your community multiplies what you can achieve. You are most successful when you enable others to lead and serve. This is also how your community grows spiritually and how local congregations develop their own potential both for the nurturing of their members and for their mission to and in the community. One of the main ministerial tasks is to help members identify their gifts, and to organize the life and work of the church so that members can exercise those gifts.

Congregational Development

- Gain tools to assess the capacities and needs of your congregation and community.
- Understand your role as a servant leader.
- Explore different models and strategies.
