

## **New Leda website and Upcoming Summer Projects**

John W. Gehring  
February 26, 2016

Warm Greetings,

I am writing to let you know that a website: [www.ledaproject.com](http://www.ledaproject.com) has been set up that gives information about the Leda Settlement and the upcoming projects that are occurring.

We have been working on two separate July projects, one for young adults and a second for the 55+ age group.

The 2nd Pathways to a Sustainable Future on July 3-19, 2016 is being co-sponsored by the Universal Peace Federation (UPF) International and it will bring participants from Europe, Asia and the America's together for a rich multi-cultural experience. The older group will have extra time to discover and explore the incredible diverse nature of that region and learn more substantially what Rev. Moon was doing in the area of hunger eradication and sustainable development.

Please visit our website and encourage those who have an interest in such things as sustainable development, service, agriculture, fishing, friendship and discovery to visit it and see if this opportunity fits their interests.

Feel free to send inquiries to me.

Wishing you the best.

Rev. John W. Gehring  
Senior Project Advisor
