

WFWP UN Geneva - The Professional Academy on Human Rights and International Cooperation

Carolyn Handschin
June 22, 2024

Providing young people with the opportunity to enhance their skills and knowledge in the area of development and women's rights is of great interest to me.

The Professional Academy on Human Rights and International Cooperation which was hosted by WFWPI UN Geneva took

place from June 17th to 22nd, 2024 in Geneva, Switzerland. Our one-week program offered the knowledge, skills, and networks necessary for a career in international cooperation.

Part of our agenda included understanding mechanisms of international cooperation, reflection on human rights and development, the role of international development organizations, and building projects for development.
