Pentecost Festival in Bad Camberg, Germany
Motto: awake a culture of heart

Over 500 registered participants joined the annual German FFWPU Pentecost-Festival in our seminar center Neumuehle, Bad Camberg

Exercises before the sports competition

Soccer, Frisbee, Tug of War and many other competitions created much fun and excitement.

After a great lecture from Dr. Balcomb about the topic: „What comes after Vienna“, other small group meetings, including a tour explaining the artwork exhibited all around the place. And our first day then finished with music, poetry and internal guidance in our spirit festival.

In spite of a short, but intense rain shower, the Pentecostal Sunday Service was changed to be celebrated outside - our Heavenly Parent really blessed us.

The German Cheon Il Guk Choir brought back the spirit of Vienna and the audience on their feet with the song „Every Praise“.

Regional Chair Mike Balcomb emphasized three points in his short greeting message:

1. If God invites you to his banquet, say „YES!“
2. Whatever was yesterday, today is today: Clean up yourself as best as you can.
3. And be on time

This was the first year we had a Live Streaming of the service for all those, who **couldn't** come.

The main sermon by German FFWPU President Dieter Schmidt reminded all of us about God's heart behind Pentecost: „God never forgets you; Even though Jesus suffered a lonely death on the cross, he forgave, and he loved, and he established the culture of love on earth. Today's message is simple: The marriage has come, Gods only begotten son and daughter have finally re-established God's original ideal on earth“

Sunday afternoon was „Open Door“. The event was advertised in the local newspaper, Info tables about of FFWPU, UPF, IRFF, WFWP informed the visitors; Artwork was sold, and people could enjoy coffee and cake.

As a special surprise the Dancing club from the neighbour village performed and the GWBB revival band brought members on their feet.

A great „THANK YOU“ to all those who helped preparing for this festival, but specially to our young 2ndGen members, who invested their whole heart, in order to show what Hyo Jeong Is all about. The „Culture of heart“ has become a reality.
