Margaret Herbers, 1800 couple sister, is a key advisor for helping register ancestors for the Cheonbowon. She will speak to details of the so-called Cheonbo dispensation of Blessing 430 couples horizontally and vertically.

She was asked by Rev. Patton in early April to help support SR2 members who have questions about ancestor liberation and registering.

Join us Tuesday evening at the "NH Mid-Week Service" for a special 1 hour with Margaret. She will speak to the dispensation of HTM overall. As you know the Cheonbo won HeavenlyTribal Messiah (HTM) dispensation, challenging as it is for us all, remains a central tenant of attending True Parents. And forms their explicit instructions and hope. **The Good News is - it's do-able! So, What's the real value? How valuable, really? How can I possibly do it?** Each of us *wants* to progress on this, but it is certainly challenging . And sometimes a bit overwhelming. If you've felt this way, this program will help. Rev Dunkley's heart is that everyone make this milestone...and help each other After Margaret's remarks, we will briefly interview her and she will take your questions. If you prefer you can pre-send questions to her at margaretherbers@yahoo.com.

Margaret and Michael Herbers are HTM "Accomplishers" and she has helped with several Cheongpyeong events in the US. She's deeply dialed into the entire process and it's value. And she's here to help.

Also, she will briefly discuss the possibility of the so-called "Sponsored Blessings", working through and with members in other countries explained on the Tribenet.co under the "guidelines" section.

(Please also consider coming on for the "pre-service" group prayer at 6:50 pm to support the speaker & prepare the atmosphere. **PRAYER MAKES A HUGE DIFFERENCE!**
