Sunday Service began with the broadcast of the May 8 True Mother video, in which she explained the providential reason for our organization's name change, announced Heavenly Parents Day and gave directions to Providence for the next course of 7 years.

With a sincere heart, the Regional Sub-Leader reported on the events that took place in Korea and in the world recently and on the new beginning given by the True Mother with the launch of the Holy Community of Heavenly Parents worldwide.

With renewed motivation, he established new goals for the Movement, inspired by the True Mother, in witnessing and activities that will be carried out during this year in Brazil.

He explained that using social networks, due to the Covid-19 pandemic, such as Zoom, Skype and WhatsApp, members are witnessing with videos of the Divine Principle and new members are being born in the light of the truth.
