June 27, 2020

To raise awareness of the various themes of peace around the world and expand the culture of peace, the Sunhak Peace Prize Foundation is holding a motion graphics video competition.

In a world facing complex and interconnected challenges that block the path toward peace, everyone's action counts. When each one of us chooses dialogue and cooperation over conflict and competition, we can all move closer to a peaceful world.

Choose a peace theme from the given list below and explore the topic and achievements of those who are working to further peace in that area. (Check out the Laureates\* section of our website [www.sunhakpeaceprize.org](http://www.sunhakpeaceprize.org) to start your research!) Then showcase your artistic and technical skills to create a motion graphics video to share with the world what you have learned.

### Peace Themes

- Africa's development
- Climate change
- Female Genital Mutilation (FGM)
- Food security
- Religious harmony
- Medical care
- Refugee education

There is no restriction on the length of the motion graphics video. Your work must be original. You are welcome to use background sound, music and voiceover.
