*Heartfelt and inspirational testimonials written by attendees from last month's CheonBo event demonstrate God's Grace and the power of prayer.*

"I came to the Cheonbo event to represent my family and offer a prayer wish card. My Dad needed a triple bypass and had recently been told he would have to wait six to eight months which felt like too long to wait. So I did a prayer wish card and offered multiple sincere prayers in the prayer room for the operation to be moved forwards. A few days after I returned home we got the news that the operation had been moved forwards to a few weeks away. I have always wanted to have an experience that would help secure my faith in God and I think this might have been it. Praise the lord!" – Anonymous.

"The Cheonbo workshop is always good for me because every time God gives me a different kind of grace. I went to the prayer room after the Changyang session and prayed. And then God gave me firm direction. It gave me liberation because I have been thinking about my direction [in life]. During the Changyang session I remembered my participation of the 40-day workshop in Cheonpyeong in 1996 and it gave me strong encouragement. Thank you." – Anonymous.

"After around one week [after the last CheonBo event in June], I had to see my GP (doctor) because of breathing difficulties. She wouldn't let me drive home and sent me straight to AandE (accident and emergency). She said I would have a heart attack at any moment. I spend six days in the hospital and doctors found out that I have a hole in the heart. I felt grateful and thought that because of the wish papers, God saved my life." – Rusi Beazer

"I have a lot of pain in my heart – from problems in my family – that I have tried for a long time to resolve. Today I felt a lot of love from Heavenly Parent and I was told to just let it go, to think of comforting and liberating my heart and those of my suffering children. A great peace came to me and I felt liberated and healed." – Anonymous.

"I want to express my gratitude for the amazing grace of the Hyojeong offering ceremony. It is the 3rd time I've participated in the ceremony, however, just once have I offered wish papers myself. Still, it is a most beautiful and holy time and the grace given to us is more than words can express. It is a gift from True Parents. Every time I am moved to tears by their love and grace. I feel my ancestors rejoice. I felt they are telling me that this is unbelievable. No one else but our True Parents can grant anything more precious than this. Thank you!" – Anonymous.

"The healing testimonies were incredible. It only goes to show the miraculous benefit of the CheonBo providence. It really gives you hope to know that we have the grace and blessing of this sacred, holy providence." – John O'Neil

"After coming back from the first day of the CheonBo workshop, a neighbour saw me and said to his visitors: "Oh, she is going to give you God's Blessing." So of course, I promptly asked: "Would you like to receive God's Blessing?". The lady [the visitor] answered with yes, she would really like to, and her partner commented that he felt he needed it too. I got their contact details and gave them holy water and prayed to send the Blessing. I really felt the activities of my ancestors! Otherwise, whenever a CheonBo official touched or tapped my head, I always felt at peace." – Anne Cotter
