Strategy Presentations Heavenly Korea: Central Region Leads the Unification of Heavenly Korea!

Bo-guk Hwang
January 8, 2021
Regional group director of heavenly Korea's Sub-region 2

The vision of FFWPU subregion two is to build a world of a great cosmic family under Heavenly Parent. Our core value is to become the central region of unity by mobilizing the spirit world centered on True Parents, transforming the world by the truth and achieving unity with true love. The medium- and long-term goals of subregion two center on the second seven- year cosmic Canaan course and aim to build a substantial foundation by creating an internal and external environment through the first three-year course and to conduct full-scale advancement to enter established institutions. We shall therefore achieve firm settlement of a heavenly, unified Korea by the sixtieth Heavenly Parent's Day in 2027.

Our tactical approach

We shall manage our members through online contact-free church services and SNS with the motivation of expressing true love for them. We intend to concentrate on training the ministers and improving their ability to offer services and present lectures from the leadership's viewpoint.

One core strategy is to create a virtuous cycle for the development of faith in local churches. We shall put an end to the vicious cycle of new members coming in the front door and leaving by the back door by creating a faith development system that is led by a virtuous cycle of missionary contact–nurturing–blessing– and ministering to members.

Another core strategy is expansion of the heavenly village community movement. The heavenly village community movement, which is a *tongbangyeopa* [grassroots-level] movement, is a substantial and effective activity to restore the local community.

FFWPU, YSP, and UPF in subregion two of heavenly Korea shall do our utmost to become the central region of unification that can lead the unification of a heavenly Korea by the three organizations forming a triple row and becoming a tight rope.
