

## How we witnessed on the streets of Manhattan, New York City in 1974

This is how we were witnessing in NYC.

One time we did a 40-hour witnessing condition.

We had rallies in front of XXX movie theaters late at night, singing holy songs.

When I was giving a lecture on 5th Ave towards the end of the condition, sometimes I didn't know what I was saying, almost dozing off (the picture against the Plaza Hotel between 58th and 59th).
