

True Father: The way to own the whole universe is to become the center of love

Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father, True Mother and Heung Jin Nim:

True Father: "Our ideology is to each become a central figure who with love can influence his mate, influence all things of creation, influence the Kingdom of God and even influence God Himself." [1]

How can we become central figures who can even influence God? Only by becoming people of true love who love the people of the world the way God does:

True Father: "Those who live with the love of God inside their hearts are sons or daughters of God. These are the

central figures of the whole universe who can govern heaven and earth. Love is the essential element enabling people to attain this position." [2]

Living with the love of God inside our heart means to love the way God does. And that makes us central people, whom even God wants to follow:

True Father: "Love holds supreme value. Once you have true love, even God will follow you, the world will follow you, everyone will follow you." [3]

Having true love does not mean to RECEIVE it, but to be ready to GIVE it to the people of the world, unconditionally, without expecting a reward, investing and forgetting, unchangingly:

True Mother: "World of peace can never come to exist as long as we focus only on receiving love." [4]

Indeed, our focus must be investing love and respect into everyone who comes across our way.

As we become people whose concern is to spread love to everyone, we inherit the universe, and God wants to follow us. He wants to "unite" with us which means he wants to support us:

True Father: "The way to own the whole universe is to become the center of love... Whenever someone is fulfilling love, the entire universe comes under that person and will follow him. Even God feels the desire to be united with such a person." [5]

By becoming people of true love, we become the center of love. We then will "inherit" and "govern heaven and earth" and the universe will "come under" us. This of course does not mean that the people of true love will command or bossy everyone around, using force to make sure everyone obeys.

True love is not about forcing people to do this or that. True love respects the free will of people and wins their heart.. They then support those who practice such a love. And such support is given willingly, voluntarily, out of one's own desire. The world of the heart is not being "ruled" by force, but by love, a love that everyone wants to be close to:

True Father: "How do we have dominion over the world? We have dominion by love. In true love a person never minds being controlled by the beloved; he only wants more and more of that sort of domination." [5]

By us exercising true love things will develop in the right direction, because of the power of such love. Such love can move our environment. It can and will bring about positive changes on all levels:

True Father: "When love begins to flow regardless of the environment in which it is flowing, the environment adapts to this flow and develops. God will be pleased only when we adopt the perspective that can make this happen." [2]

As soon as we invest true love unconditionally into everyone, we will increasingly see God at work in our life. Things will fall into place, often in surprising ways:

True Father: "I give and forget. That is how I live. It's that simple. My life seems very hectic and complicated, but it always comes back to being simple. Nothing is complicated. Wherever I am, everything just fits right. Perfectly right!" [6]

This certainly does not only work for True Father, True Mother and Jesus. That works for all of us, as soon as we invest true love into all people. The more we discover and experience this, the more unstoppable we become. It is up to each one of us to apply this amazing principle in our everyday life. Only if we go forward on this path, will we reap all the blessings that are connected with the way of true love. Our life will get more and more exciting. We will certainly not want to turn back. Once we find true life, we will certainly not give it up. Rather other people will be affected as well, joining us on the path of true love:

True Mother: "You should show them [the people] what kind of person you are and tell them you became what you are because of True Parents, and encourage them to join you. That is what True Parents meant by starting a true love movement." [7]

As we practice the love of the highest quality, loving the way God does, we do not even need to proclaim to others what kind of people we are. They will notice it anyway, by the way we are treating not only them, but everyone. They will be attracted to us:

Heung Jin Nim: "Heavenly love is far more contagious than even the deadly diseases of satanic love. Heavenly love is like a fire." [8]

Heavenly love is like a wild fire, once it starts burning. It will burn away all evil in this world. We have the great opportunity to be part of this wild fire, by becoming central people of divine love. There is no greater contribution we can make to the world:

True Father: "The greatest treasure you can give to the nation and the world is true love." [9]

This statement is just as amazing as it is true!

Love from Bruno. Happy New Year!
