Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father and Heung Jin Nim [in the spiritual world]:

True Father: "Think of how much ridicule and negativity God receives... God has been thoroughly ridiculed and persecuted by mankind; you have no idea of the extent of it. What you experience is nothing in comparison to what God has received, yet God is still embracing and calling out to the most satanic people." [1]

God does not even have the concept of enemy:

True Father: "If God were to adopt a philosophy of looking on Satan as His enemy and seek revenge against him, then God would never be able to stand on the pinnacle of victory." [2]

Inheriting the heart and love of God means to become people who can love in the same way as God. That is not something that comes as a by-product, but by constant training of heart. Advancement of heart has to be at the forefront of our mind all the time.

Loving the way God does will revolutionize this world where people consider love for enemies as crazy. But this exactly is the quality of the love of God, that those who want to represent God must strive for.

Love of that quality the real tradition of God and True Parents and is the central element in establishing the Kingdom of heaven. Love of that quality is the love that the world has hardly ever seen. We are requested to embody that very love:

True Father: "The mission of restored man/woman is to demonstrate a higher quality of love than ever existed in the satanic world." [3]

Once if we strive to reach higher and higher levels of love all the time, we can make a real difference in this world. We need to come to the point that we can heartistically embrace everyone, in any situation:

True Father: "True love means that when it is easy to love, you love, and when it is difficult, you still love. This distinguishes true love from false love." [4]

The heart of love embraces everyone, invests into everyone. The purpose of all our activities is to develop a heart that can love in that very way:

True Father: " Reverend Moon is like the professor in charge of the members of the Unification Church. The subject of learning is true love; I push you out into situations in society that will train you and season you as true love champions. You do not sit in classrooms but learn through activities. The purpose of all those activities is to enable me to sign your true love certificate." [4]

If we just focus on the external aspects of our activities, then we cannot become champions of true love. We will rather lose power and cannot achieve much, neither internally nor externally:

Heung Jin Nim: "You've been very stubborn and determined in the past, and not giving up in terms of your responsibilities But now you need to make a determined effort, ten times that determined in terms of reaching into yourselves. That is why sometimes you felt empty because your determination was more external, but not internal." [5]

Reaching into ourselves means to develop our heart, and not just to focus on external things. The more we strive to advance in love every single day, in any encounter with people, the more we will become inspired and full of life, reborn. We will be able to inspire others, by who we become, not just by what we say.

We will bring God onto the scene and become people with confidence, who can achieve victory in many situations, based on the power of heart and true love.
