

## True Mother: You need to grow internally and then reach a position in which you can lead the external world

Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father, True Mother, Sun Jin Nim and Heung Jin Nim [in the spiritual world]:

True Father: "You should be filled with faith. How happy would God be if you became perfected men and women who can receive love from God." [1]

We all were created to achieve perfection of heart and love. We all were created to inherit the heart of God, which means to develop God's heart in ourselves, so that we can resonate with God's and True Parents' heart. This is the goal of all of us.. It is our destination. We all have this potential. There is no exception.

If the fall would not have happened, the whole of mankind would resonate with the heart of God. That would be the ideal world, where love would be everywhere and anytime.

In order to establish that kind of world, we need to develop ourselves continuously by exercising our heart and love, thus developing our personality. On the foundation of having received True Parents' blessing we need to be in constant love training:

True Father: " In order to establish a world of true heart-centered culture, we need to develop our personality through education in true love and True Parentism, and we need to expand the movement that creates families of true love that have received God's Blessing. Under that Blessing, we can become ideal couples and families by continuously training ourselves through a life of faith in which we practice true love by living and investing for the sake of others." [2]

Based on the Blessing of True Parents we can come to more and more resonate with the heart of God, but the Blessing alone is not enough. Our own training of heart is needed to grow in heart and love more and more:

Sun Jin Nim: "Just because someone joins, works as a missionary, and gets blessed and has a family, it doesn't mean that perfection is readily achieved. Is any great achievement easily achieved? No, it takes

practice, practice, practice. We must apply the Principle with sincerity in every single conscious moment of our lives, as individuals and as families. Only in this way, can we function at a world-class level. Only in this way will it be possible for all 7 billion people of the world to come to understand True Parents' teachings." [3]

We certainly cannot rest on past victories or achievements:

Heung Jin Nim: [talking to Japanese members] "Great things have been fulfilled in the past, but people who have fulfilled the great things in God's providence get stuck in the past many times and stand on their foundation of the past and do not continue up the hill.....Do not rest on your victories of the past. This is a time when each Japanese member must have a victory now and each day, each day, each day! It will be in the heart." [4]

We all have to achieve victories in the heart day by day, because this is where the real front line is:

Heung Jin Nim: " You have come a certain amount of the way through the desert, but now sometimes you stop between two sand dunes and you don't have the power to climb up and really see if Canaan could be up at the top. And so you are digging sand, dutifully and obediently, but that is not your job. It is your job to go forward, and this is not just an external responsibility; it is not just obedience to Father's latest project. It is going forward in your hearts...." [5]

The real job is to advance in heart and love, so that we can move towards our perfection, which is so much desired by God.

The more we move forward in heart, the more we can move the external world:

True Mother: "You need to grow internally and then reach a position in which you can lead the external world." [6]

Our internal growth of heart must be our constant concern, our constant thought. We have many situations, many encounters, day by day where we can grow in heart. These are often the situations where our fallen nature also raises its voice. If we grow in heart or strengthen our fallen nature, depends on how focused we are in these situations.

If we are focused, we can achieve victories of heart, instead of getting tricked by fallen nature. If we are focused we can grow and grow, becoming more and more divine and getting closer and closer to the perfection of our heart and character.

The more we advance towards our destination of becoming perfect in heart and love, the more we contribute to peace in the world:

True Mother: "All of us desire to live in happiness in a world of peace. We can attain this dream. Let us forgive our enemies, love our neighbours as if they were our own flesh and blood, and unite for the sake of peace. Let us advance toward one world under our Heavenly Parent. Join me in marching courageously forward until the day all people can live as brothers and sisters, as one great family." [7]
