Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father, True Mother and Sun Jin Nim:

True Father: "Without love, you cannot win over Satan. Even God has to stand in the position where He can rightly say that He loves the fallen archangel. You are God's sons and daughters. Therefore, for your family to enter the kingdom of heaven, you also have to stand on the condition that you have loved Satan. That is, you need to set the condition that you went out to struggle with Satan's world and won over it with love. You must be able to claim, "I did not crush my enemies; instead I brought them to surrender with love. In this way I restored the right of the eldest son." [1]

The fallen lineage and fallen nature, that we inherited from the fallen archangel, do not know true love. Fallen nature only knows resentment, jealousy, hatred, revenge. It certainly cannot love an enemy. It can only think of killing the enemy. The result of this is the conflict-ridden history we know.

People tried to advance through revolutions, but in the end things did not become better, often even worse. All these revolutions could not make a better world, because the root cause of all the conflicts in the world is the fallen lineage and fallen nature based on selfishness.

People make truces, peace treaties, talk about brotherhood and sisterhood, but in the end there is still no peace. People still hate and kill each other, on all levels, simply because they are still in Satan's lineage of selfishness, of the inability to love enemies.

And on top of all this, people consider the fallen nature as normal, as "human" nature. They think selfishness is just human. They do not know that there is a difference between the fallen and the original lineage, the fallen human nature and the original human nature.

True Parents came to bring us back into the original lineage, free from the fall, free from selfishness, but based on true love. True Parents changed our lineage through the blessing, but still we have to become substantial beings of true love. Still we have to become people who are ready and willing to love the enemy.

This is not just a challenge. It is a big blessing that we can become people who can love like God loves. There is nothing greater than this, and we all can do it. If we do it, the Kingdom of God comes with high speed:

True Father: "A great movement of restoration only comes from this ideology of love. Only the power of love could begin the new history and new age. When a person has the power to even love his enemies, he/she is truly a giant and there is nothing he/she cannot deal with or embrace. Ultimately that person shall conquer the world in God's way." [2]

We need to create a completely new culture, one that has never existed, and one that God always wanted. This culture has to start in our hearts, by developing the highest levels of love, loving those that the fallen nature wants to hate and kill:

True Father: "You are the very group of people who are going to set the new tradition of love centered upon God rather than on the self. You are going to bring purity of love to the world. You will sacrifice anything and everything in order to build that new tradition of love, as a way of life. " [3]

We need to purify our love. We need to develop our heart, so that we can love even those that hate us.

That is the new tradition that God and True Parents want to see and that will revolutionize not only us, but the whole world. That is the tradition that will create eternal peace and happiness:

True Mother: "In other words, true love is to love even someone who seems impossible to love, and thus, in true love you have no choice except to love even your enemies. Furthermore, true love is the sacrificial love of even giving one's own life for others. Therefore, in true love the antagonisms and conflicts among individuals and among societies or nations are completely transcended and dispersed. With true love we can achieve true peace." [4]

Sun Jin Nim: "During those racially and nationally tense historical moments, True Parents knew that only when we can unconditionally love our enemies, can a peaceful world begin to emerge. They even risked their lives to unite and embrace leaders of enemy nations in order to bring peace and healing to this world. This is the level of courage and heart that I hope all of you, as leaders, can inherit from our True Parents." [5]

All of us can develop such a heart.

Love from Bruno
