

Heung Jin Nim [in the spiritual world]: Do you want to stay at the same level for the rest of your life?

Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father and Heung Jin Nim [in the spiritual world]:

Heung Jin Nim: "My message for you is very simple. I want you to graduate from the school of heavenly love. This is the key. It is so simple." [1]

The world that God designed from the very beginning is the world where everyone has a heart of heavenly love. Heavenly love is love on the level of God's love. It never changes and keeps giving, no matter what the response is. It gives and forgets. It digests all hurts and forgives, again and again.

Our most important goal in life is to become people of such a love. This goal has absolute priority over everything else:

True Father: "Living in the image of God means having God's words becoming your words and God's love become your love. That is your first goal." [2]

The key for our success in life is to keep focused on becoming people in the image of God, people with a heart that loves the way God does. If we do this, we can graduate from the school of heavenly love.

It is very easy to lose sight of this goal, because fallen nature always tends to pull us away from focusing on true love, heavenly love. Fallen nature leads us to focus on external considerations, making us believe that victory comes from that direction. Fallen nature also makes us develop and follow resentment. It leads us to hitting back, instead of forgiving and forgetting. And then it makes us justify our wrong attitude, so that we can continue down that road.

People have followed and justified their fallen nature throughout history, having had no clue about what true love is. The result of this is the history full of conflicts and war. We can never establish the ideal world of God's design by just continuing this fallen history. We have to make true love our absolute center in life, not just in theory, but in daily life, where we have more than plenty of opportunities every day to chose true love instead of following fallen nature.

Graduating from the school of heavenly love means to always make sure our attitude, words and deeds are in line with God's heart of parental love. This requires that we always keep watching and analyzing ourselves, to find out if we are deviating from true love right now or not. If so, we need to make corrections immediately, before drifting further away from the ways of true love.

With other words, we need to always make sure that what we say and do comes from the right motivation. We have to watch our motivation all the time. As soon as our motivation becomes self centered, we are wasting time:

Heung Jin Nim: "Do not waste time. Use time wisely. Your days on earth are surely numbered. Do you want to stay at the same level for the rest of your life? A lot of people waste their time because they do not understand God and they do not want to live according to God's standard. But you should not waste even a second. Use every second you have. When that second has ticked by, you have to be able to say you have grown a bit more." [3]

By more and more people graduating from the school of heavenly love, the world of the heart will become more and more visible to everyone. God will be on the scene more and more, and miracles unheard of will certainly happen.
