

Rev. Chung Woo Lee Meeting with 2nd & 3rd Gen Notes at Belvedere, NY— Tuesday 1/9/25

Question #1: How can a regular member who is not in a leadership position get access to recordings from the Cheon Mu Won?

Answer: Due to time constraints it is difficult to open True Mother's daily words to the public. The process is we record her words and speeches, receive True Mother's approval and then we make it an official version which is what is sent out to the public.

Also information is categorized before it is sent out as some information is for leaders only and some for members.

This is all done to avoid the misuse of True Mother's words.

Question #2: What is the most important aspect of the Cheon Won Goong that members need to understand?

Answer: It is the Golden Age. We are currently in the only time we can ever live alongside True Mother. True Mother has opened a new era and a new age to live side by side with True Parents. This is the only time we can live with True Mother here on Earth.

The Entrance and Opening Ceremony is the time she will open an era to live alongside True Parents.

Question #3: Will the Cheon Mu Won be the governing structure even after True Mother passes away? Will there be a successor?

Answer: True Mother is currently in charge of Cheon Mu Won while she is here on Earth and existing. She is leading.

The Entrance Ceremony will consist of very important directions and rituals to remain in history forever and there will be official positions and titles given to 3rd generation during the ceremony.

*** Around this time Rev. Lee mentioned that in Korea they do not even speak of True Mother passing away as it is seen as bad luck and rude ***

Question #4: There is a Cheon Won Gung donation campaign taking place in the northeast. There are rumors about the use of the funds. How are the funds that are donated being properly managed?

Answer: True Mother established an organizing committee to prepare for the Opening Ceremony. They are 13 to 14 capable men and women transcending divisions, structures and from all parts of the world such as Korea, Japan and Europe who gather every week to discuss and plan.

Within this organizing committee, there is a subcommittee who deals with finances and it is not just one person. There are multiple people who can see what is going on, how much is being spent, the budget and it is all seen in the organizing committee. I am not part of this finance group. I only use the budget (laughter).

Question #5: What is True Mother's response to her 2 sons? H1 and H2 as well as other dividing groups that have emerged?

Answer: The Bible has many central figures who have certain responsibilities in certain times and places. If they fulfill their duty, they remain historically. If they fail their responsibility, they lose. They become nothing. In the Bible you do not see what happens to them if they do not fulfill their duties. They do not write about it at length.

If they fail, what meaning do they have? They are nothing.

1st generation and 2nd generation, is there any difference between them physically? No. But then why do we call ourselves 2nd gen? It is because we do not have original sin.

How do we know this? Can we see our DNA? Is there a DNA mutation that makes us 2nd gen after a special ceremony?

We simply believe and see a difference in blood lineage due to True Parents. They said so and that has value.

If the sons come back, that would be good. But responsibility for the providence is different.

Question #6: (this question was asked in Korean and translated by Kim Su Ho)

The political atmosphere in Korea is very chaotic right now. Our church policies are important because it affects our actions and how we should proceed. What is being done to support political division or issues seen within the family? How should we respond? (선교정책)

Answer: True Mother is also worried about the political division in families. She asked that educational programs be made because even in front of True Mother, leaders will argue about politics.

One will say to impeach President Yoon and another will say no that is wrong.

True Mother has gathered leaders in the training center and they could not go home until they watched the full powerpoint and received the complete education program about political division.

These educational materials are from True Mother's words. She has said that the world needs a leader who is focused on God. Not a leader who divides. YSP, UPF and Family Federation, everyone is getting education. The goal in Korea is to educate 500,000 people before the Opening Ceremony.

Question #7: Why doesn't True Mother talk about True Father more in public? What is True Mother's opinion about who inherited True Father's mission?

Answer: True Mother writes a new page of history every day. She is always moving forward and she can not look back.

Question #8: Why has True Mother said not to teach past Chapter 1: The Principles of Creation in the Divine Principle?

Answer: New members can learn about the Fall and more topics in the Divine Principle. But True Mother wants to move forward and teach new, innovative topics to us. Advancement, True Mother is always looking forward and she wants us to learn more new and bright information.

Question #9: True Mother is a strong, good female leader. When will we have more female leaders in our church?

Answer: There are a lot of female pastors in Korea. There are actually many young female leaders in Korea who ask what can be done for them if they become pregnant (maternity leave). I do not handle this, we send them to higher leaders and the leader handles this and they are helped (laughter).

Question #10: God's providence is full of constant failure which is seen in the Bible. True Parents' essence is important but many younger generations do not understand this. Is there something we can say to help them better understand?

Answer: Right now only True Mother is physically with us. True Father is with us too and he is spiritually helping but there are limitations. True Mother is the only one here right now. It's only her. She is preparing for the day when she is not present anymore.

There are other groups and divisions in our church but most importantly is to unite wholeheartedly and physically with True Mother.

Essence is True Mother's existence. Essence=existence.

What happens to us children if we do not have parents?

Question #11: We learn about Mary's failure to lead Jesus to marry. However was there anyone else born at that time who could have helped Jesus succeed in marriage?

Answer: According to True Mother's words, no one else was born during Jesus' time to help him to marriage. Jesus was on his own.

Question #12: Is the future governing structure of our church going to be monarchy style like Queen Elizabeth in the UK or similar to the US democracy?

Answer: True Mother is planning ceremonies at the Opening Ceremony to establish future governing powers for 4th and 5th generation.

Question #13: The Cheon Shim Won Night Vigil Prayer from 10:00 PM to 1:00AM, is this a current condition for now or will it change in the future?

Answer: True Mother wants everyone to be Pure Water. But some are mineral water (laughter). Some are flavored water.

This is a positive spiritual condition that all young people should do to make themselves become closer to Pure Water.

Question #14: After the Opening Ceremony in April, will there be any physical changes?

Answer: If UPF works hard and finishes and completes everything, we will have 100% success and completion (laughter). Let us give a round of applause to Reverend Jenkins to have victory.

Question #15: True Mother asks us to unite with her but what does that look like?

Answer: Speak, walk, talk, think like her. Wake up and think of True Mother. What is she eating? What is she drinking? Is she drinking bitter coffee? Actually True Mother likes to eat a bagel and bitter coffee in the morning. It is a rice cake bagel (잡쌀 bagel?)

Think of True Mother always.

Question #16: When Reverend Dunkley speaks to us, he reaches the hearts of young people by sharing personal stories of True Mother. Will there be something like that made in the future? Like a cookbook with True Mother's favorite recipes or True Mother's exercises/health advice?

Answer: Reverend Dunkley do you want to answer?

I know that True Mother told a reverend to park his car farther away when he comes to the Cheon Jung Gung (laughter).

Question #17: What is your best advice or point we should take away from True Mother's speech at East Garden yesterday?

Answer: Mind and body unity issue. I struggle to wake up physically every morning to meet with True Mother. Sometimes I wish I could stay in my bed longer but I know True Mother is waiting. Less thinking and more working hard. True Mother calls, we must run and go. She is waiting.

Question #18: Missionaries; they are wonderful and we received a lot in our community. They are being specially trained to witness but will there be an option in the future that allows them to become a pastor in a high-need or struggling community that might be lacking and need missionaries?

Answer: We set up many policies, but there are not-so-organized systems that have been used in the past. Cheon Mo Won has been established because True Mother wants everything to be done based on policies and a systemized, organized system with collective voting. Maybe talking later on with Reverend Dunkley would be better.

Question #19: (This question was a little confusing)

I just want to apologize for my question before; I didn't realize it was rude to mention True Mother passing away.

Why could the only begotten daughter not come to exist in the past? What was the starting point of Mary's failure? Was it Elizabeth and Zechariah kicking Mary out of their house?

Answer: Listen to True Mother the only begotten daughter wholeheartedly. Were we all there in history to see what happened?

Question #20: Foundation for True Father's lineage for him to be chosen as the messiah. How was True Father picked?

Answer: There are True Father's words and explanations in books about this question. When the right time has come, the Messiah will appear. Read the Life Course of True Parents (True Father's Autobiography).

Question #21: We have different traditions and practices from other churches. Are these all made by True Parents? Young people follow these traditions and it impacts them that's why I am asking.

Answer: Educational programs vary by nation or region. Cham Bu Mo Ron is the mainstream of teachings. True Mother wants everything to be established quickly so we can be educated faster. We try and have the desire to fix everything before the Opening Ceremony. There are separate programs based on area and nations but all based on Cham Bu Mo Ron and the concept of hyojeong.

Question #22: Some 2nd generation have asked me what is the benefit of following True Mother?

Answer: For me, I could receive Blessing and marriage. I have a wife and 2 daughters. I was a young missionary living and studying in the country of Kyrgyzstan that many do not know exists. It was an unknown and foreign country at the time and I had no salary. Despite all that, I was able to get married. What wife would be willing to marry me and move to such a place? But I was blessed. In Korea the birth rate is low. No marriage. Young people do not even want relationships. No couples and many young people have given up on getting married. There are a lot of young people like this at CheongPyeong too. But I was able to get Blessing and have a happy family. There are many issues in the world like marriage, family issues or finances and one's own future. There are many young people who struggle with these issues if you go to Cheong Pyeong. I tell them, if you leave or step out of our movement you will never get married (laughter). They acknowledge this. Marriage and children. I benefit (laughter). Not good enough? We have Cheong Pyeong and an environment that supports you in this chaotic world. Place with True Parents who love you and community and space to comfort you or people that will pray for you. You always have a place to go. It is like your hometown. Reverend Lee Ki Seong and other members will love you unconditionally, pray for you and support you. There are lots of young people who go to Cheong Pyeong and get comfort. Every morning you wake up and see the Cheon Jung Goong and know that True Mother is there. Kim Su Ho will buy you Korean black noodles (짜장면) (laughter). Tell these young people who ask that question to go to Cheong Pyeong and fill themselves up.

Question #23: Church identity; we've had many different names in the past but I know "Heavenly Parents' Holy Community" is our new name that True Mother gave. Are you going to have a new name or title in the future?

Answer: What is the Vatican? (laughter) It is both church and state. We will become like that.

Question #24: What would you say to the 2nd or 3rd generation who are still struggling with accepting True Mother?

Answer: We have a physical mother and True Mother. Biological mother tells me to do something but I do not agree and I do not want to accept it. We argue and I finally persuaded my mom. I won. What did I get from arguing and winning? There might be something you do not understand, it is unacceptable or you are unable to fully embrace it, not only about True Mother, but with your own parents too. I emphasized continuously today that when True Mother asks us to do something, if she gives us direction or a message, we need to be grateful that True Mother is near us and alive to tell us something. Logically I can win an argument but that has no result, nothing, no benefit. A wise man said that winning an argument, you are left with nothing but regret. Hyojeong is something that can only be fulfilled when your parents are here.

Question #25: Can we build a Sports Complex at CheongPyeong? (cheers)

Answer: We have one already. At the Cheon Won Camp.

Question #26: Is there a favorite snack that True Mother likes?

Shin Myuh Nim answered this question: She likes cheesecake, not too sweet snacks, bitter flavors too like dark chocolate, nuts, blueberries, grapefruit.
