Summary

Holy Mother Han's special training, which is also conducted as the 15th spiritual training, is a spiritual training for the divine unity of Korea, and has a surprise role in heaven. 13 and 14 victories spread all over the world, children who say that they will become one with Holy Mother Han, but their parents' countries should fulfill their responsibilities and bring them victory. Once the 15th is over, there will be an important moment in Korean Kami Japan, both provincially and historically. Good and evil are playing tug of war with future generations.  
Future generations have the potential to move nations, worlds, and heavens, so hold them up tightly

during summer holidays and shout hotly to the heavens and a new wind will blow. The spiritual training that had been practiced in Korea until the 14th was in a revitalization position, and the 15th was in a prolonged position at the first Korea-Nichi Ittai Shureen-gai in the era when the heavens directly governed. Complete spirituality training becomes a spiritual practice that is established throughout the world on the foundation of victory in Japan.

In the message on 6/19, it was said that the Chewan Navi unit of the underworld was formed by the two generations of the Holy Concerns. In a message from his father on 6/18, he said, "If you have your kind prayers, we expect 556-564 people to participate," and as of today, July 2, 576 people have decided to receive the reception and 519 have arrived. I see what Heavenly Father and Mother are doing for this. It can be said to be a role in the spirit world that you try to perform with your mother's help.

**Proof of 30s in Iwate**

"I haven't been able to walk properly recently, but I heard your mother's voice at the resonance prayer meeting." When I was reinstated as a student, I was walking with an oath that I would dedicate my life, but I received my blessings and had a home, and it was time to look back at what my walk looks like now, from Heavenly Father and True Father. Grasping the heavenly calling and mission, I vowed to become a valiant warrior, who remembered and waited for me, I couldn't stop crying with tears of emotion from the deep love of my mother. "Thus, through Tenshinki Seijin, I hope that all leaders can move forward by listening to the voice of Heaven alone.

"I always participated in the middle of the all-night prayer online, but for the first time as a pilgrimage to the Holy Land, I participated until the end." I had my first experience in my life that I can't stop crying just thinking of the feelings of my Heavenly Father and True Father while singing praises and listening to the testimony. Seeing the way the second and third generation cared for their parents and devoted themselves, I understand how much their mother expects us. After hearing the praise of "Iro Solira," I felt deeply emotion and courage to see how much the true mother and the whole world love Japan. Through all-night prayer, I realized that I can return to my mother's womb and feel a new feeling of being born again. "

### **Proof of Resilience Academy Student**

A mother with terminal cancer wants to inherit his faith, and sincerely encourages him to participate in training for 40 days. The son quit his workplace in response to his mother's request and participated in the training session, but he couldn't benefit from it. The mother further advised the spirit training and participation in the spirit academy, but the son did not want to participate. "You are the only one I can ask for, I think 99% of these diseases are spiritual causes, because I want to live more," and she was absolutely obedient to her mother's words and entered the spiritual academy and decided to become a trainee without shame, and gave her tears. Believe heaven performs miracles if you become a son who will inherit the integrity of a fine mother. Miracles happen if you can enter a place of moving that causes the spiritual cell to activate the physical cell.

The 13th year of Heaven in which we live in worship of our Creator Heavenly Father and Mother as a real entity, and as a result of Holy Mother Han's victory, we finally live in a new era where Heaven can rule with the entrance ceremony of Tenjingu Shrine Tenichi Shoden. Just because one entered the temple does not mean that the era was realized. We must win the Messiah of the clan and become the gods, households, and clans to rule over it. On that foundation the divine nation is established. There is still a long way for us to go. You have to accumulate more diligence. Therefore, Tenshinshi is hope, the most precious gift from heaven. Even the spirits who row in hell say their hope is to be dismissed by Tenshinzen. If the number of Tenshinkai Seishin exceeds 100,000, 200,000, exceeds 1,000,000,000, the divine unification world approaches and evidences of miracles are transmitted, the divine world will come naturally if the actual act is surprised that who is the main character of the miracle is the true father and mother of heaven and earth. First we sort out the works of the evil gods and bring forth the works of the good gods. Believing that the time has come for the purpose of heaven to be fulfilled on earth, I pray that it will be a time to pray earnestly.
