Summary

585 people have been reception for Holy Mother Han's special spiritual training session and now 520 have arrived, tomorrow is the deadline. Tenshingo, which is not accomplished by human power, but by heaven's power, is convinced that we have reached the age when living and working Heavenly parents are acting as a role and all words are fulfilled.

What a mother said to the leaders today

"You have decided for 2027. For the first time in 6000 years, Holy Mother Han offered a sacred temple to welcome Heavenly Father to earth and entered the palace, but the environment is still very weak. So I told you that I must preach before my margin. At least one person a day must return to the country. This is how we can become a nation that fulfills the responsibility of the

elected people, and become the home country of the elected who will receive the world's respect. You have to make it out of cope. Let's all win together. "

Message from Moses

"Heaven blessed those who went out to the land of Canaan as their chosen people, but they could not do their responsibilities, and the people of Israel had to walk in a misery way. Leading a people is truly challenging beyond description. When all trials and tests fall short, it is really difficult to keep going in obedience before heaven. Too many responsibilities, you don't know how much resentment I prayed with tears before heaven even while fasting for 40 days on Mount Sinai. I don't know how much I've become until I'm in the resonance director here.

The joy and excitement of finally being opened to heaven in the midst of it is immeasurable. But I saw this nation and could not but lay before heaven again. Heaven, how can I, in this insufficient, fulfill such trials? I know I'm short too, but they don't understand too heaven. What shall I do with those who do not follow me, when I am not able to do it by myself? All I have is an obedient heart, a road I've longed for is salvation, but the road we go is a road of thorns, a road of tribulations. As we continue to walk through the endless vast wilderness, we have grasped on with only one hope. So show me your heavenly authority.

You will end your life without seeing the land of Canaan that you speak of. And if you will grant them, let them be settled in the land that you have commanded them, even through your grandchildren. I have grasped this nation and tried, but looking back, I have not been able to admit the heart of heaven, but have complained of my own pain. But the True Mother triumphed

over all her troubles and adversities, and went on with the comfort of the Father in Heaven above herself. And to all the blessed households he said, "Do your responsibilities as the elect." The responsibility of the elect is to increase the number of those who fully know the will of heaven, so that they may fully inherit the will of heaven even to their future offspring. This is not what one can do alone, but what one can do when one person who knows His will and knows the goods of heaven, moving forward with one heart and multiplying.

The place where an individual can understand the purpose of heaven is Tenshin-ni, and it is Tenshinni that resonated with heaven and opened the way for us to fulfill our responsibilities by resonating with the spirit of Holy Mother Han's true mother. There are many good spirits in the spirit world who have a lot of wisdom and experience. Heavenly wisdom and heavenly creativity are infinite, but it is here in Tenshinshi that we can easily inherit all of them, and it is the grace of this age that our Heavenly Father and Mother directly governs us. Know what a good time you all are living in. It is important that each of you should be responsible for being united with Holy Mother Han, who is fully walking in heaven's path and in union with heaven. For I am so insufficient, I am making my steps to advance as one with Holy Mother Han through earthly people in this underworld. Please pray for the true mother and protect the true mother. "

Our prayer today is a prayer that Moses also prays. Lift up your voice in place of Moses, and pray in prayer. My body now is not just me, it's a replacement for every historical figure vertically. I am the Messiah of my clans and all of my ancestors. In place of spirits, clans of the spirit world and all ancestors who have never been able to call upon their true fathers, cry out "Aboji, Omoni" as much as you can. Those spirits who have lived in hell on earth without being able to see their true parents, if you all receive the seal of authority from your true parents and discharge your ancestors, the spirits who wandered in the spirit world can go to heavenly practice with the guidance of angels and become absolute good spirits and receive blessings.

If you truly know the value of Holy Mother Han, who gave us the amazing grace to return to the direct daughter of Heavenly Father, you cannot be this way. If the whole heaven will live in the life of Holy Mother Han and do their love for living, then a world of true peace will arrive. You can't escape earthly hell in a world that attacks your neighboring country. When Holy Mother Han was alive, we must unite all mankind as one brother and sister in the center. At least by 2027, we must make God Korea as a country that glorifies Holy Mother Han. The beneficiaries of Korea must repay Holy Mother Han before the true father and mother.

How much hard work your true parents worked for the development of Korea, and worked hard for God Japan and God America to avoid communization. At this time when it is finally time to establish a Union of Peace on earth and bring us closer to the country that Heaven desires, His Will will not be fulfilled if we remain quiet. I need to pull myself together now. Kahei established the standard that she became a completely new Kahei and formed a sister blood relationship. Sister blood relations shouldn't be able to sit still. If you do events, you'll be working to fill the World Center and empower mothers in just a few months. I believe that fortune will fill Korea and that's how the underworld will be mobilized.
