Summary

Mother gave Nemo T-shirts to all Holy Mother Han's special spiritual trainees is a blessing given to the students who became one with Holy Mother Han. The all-night seijin at the Matsuura Headquarters Church marks the third anniversary of the Abe Prime Minister's incident. 400 episodes today. I feel that each one is not a coincidence, but a great meaning in heaven.

Whether our parents risked their lives to love this world, to establish each one of us, or to search for Amengu-danchi, the Garden of Eden, where they were restored, they risked their lives and devoted their bones and flesh to search for us. On July 12th, fiscal year 71, the Shuren-ryu was opened, Tenjo Orin

Kuden was dedicated in 1999, and in 2001, the Emperor's enthronement ceremony began to move forward with new hope. After the proclamation of the Kogen-setsu, I don't know how much I devoted my whole heart and went through a difficult journey to make the entrance ceremony of Tenjongu-gu Tenichi Shoden, which opened a new era in which Heavenly Parents could directly rule. Considering that the three-year journey of the Sacrament of Japan was exactly

Jonah's three-day period through the whale's belly, and the three-day period in the tomb after Jesus' crucifixion, it is a historic day when we can start fresh on the third anniversary, we must move forward with more fervent praise, prayer, and faith. Thinking that July 8th is the day that means falling down, falling down seven times but getting up eight times, we must move forward with greater faith than the faith we had before. When we think about knowing our Heavenly Parents, knowing the principle and the spirit world, and walking through the history of hardship with our true Parents, we cannot let this cool our faith. While I was devoted to Tenshinki, a lot of miracles happened to god Japan.

I saw the president of Nagano Church returning from the door of death, and the president of Urawa Church collapsed on March 8th and was told that it would be difficult to revive, but he showed a miracle of resuscitating again. Heaven performs miracles to God Japan in order to reveal the glory of Holy Mother Han, the heavenly fathers and the true fathers of heaven and earth. I believe it is the providence that shows us that "We have a Heavenly Father and Mother who lives and works like this, do not despair, do not be disheartened, rise up and cry out loudly." It's harder and harder than any other time, but if your mother could suffer the hardships, it wouldn't be more difficult than that. It is our responsibility, and when we think about what course this country, chosen by heaven, will go, we must grip our people and the world, and pray earnestly, and allow the office of our Heavenly Fathers and Mothers who have been present in this land to arise.

Despite the difficult situation for my husband's medical examination in May this year, his cancer numbers were more than four times normal, he did everything he could. If the Tenshinzai prayer was completed, the ancestor blessing ceremony as a representative family, received the service, and served in the church, there was evidence that something miraculous happened.

As we live our lives, how much better if we live our lives with eagerness, not because of difficult things. Considering the thousands and tens of thousands of spirits who borrowed our bodies, we think our day is a glorious day, where we live in a thousand years, and we say, "I really did my best, Heavenly Father, please play the role," and we hope that this will be a time of new resolve, where we can hold on to the best we can for every blessed family.

Testimony of the International 40-Day Shinee (the mother of the trainee testified the other day)

How many prayers have been for my son who ran away from home, who gave up his life and ran away from home thinking the church had taken his family. After listening to heaven's voice while praying for Tenshinzai, he performed four times for the sake of his son, an incident occurred for him forced to come home. After coming back home after a traffic accident, he was suffering from insomnia and couldn't do anything about his family, he managed to win 40 training sessions and 120 days training sessions. The other day, he completed 80 days and gave testimony with tears, but he accepted 40 days with truth and a miracle happened. Negative thoughts disappeared, obstacles that cannot be controlled by anger completely overcame and became victorious. Through the testimony of this time, the words of father and

mother were fulfilled. After taking three 40-day training sessions, he became a person who was completely reborn. I have reached a stage where a person who has been at their worst becomes a completely new person and can resonate with the sentiments of Heaven.

After spiritual training and academies, the second and third generations leave for overseas missions and ministry, they do it not because they are told, but because of their own will and diligence. As they go and crush the earth, favor is spreading upon the people of God America, stirring up a wind of spirit and truth. This must spread worldwide. When darkness is full, you can only win by speaking up. You can drive out evil with the power of your lips. With the power of their lips, it is not that they kill evil people, cut off lives, but with the power of the lips we create people who forsake evil and go towards good, the church will develop. It doesn't just happen at a time.

State establishes national religion doesn't mean church has life. There are many Christian nations in Europe, but where are the nations with life. Since you have lost your life force and you have a tomb-like church, communism is overrun and the world is plunged into sin through humanist culture. Therefore, by lifting up your voices and praying, when one who hears the voices of Heavenly Parents appears, and testifies to Heavenly Parents throughout the earth, then divine individuals, divine families, clans, divine people, and divine nation, and divine united world will be fulfilled on earth. If we can't shed the shell, we can't leave hell on earth. Christianity couldn't do heaven on earth even after 2 thousand years. Still crying out the Lord who rides in the clouds, "Come!"

If you believe in Heavenly Parents and True Parents, if you enter this era where you can worship the Living Creator Heavenly Parents as an actual entity, and move forward with a single heart for your Mother, then you will be surprisingly fulfilled on earth. Keeping the signature word for the 13th year of Heaven ichikkoku in mind, it is the 13th day of Heaven ichikoku, where the creator Heavenly Father and Mother live as an actual entity, and the real entity is Holy Mother Han, Heavenly and Earth As a blessed family, I sincerely wish that this time will be the elected people who are completely united with their true fathers and parents, and become true children who fulfill all the responsibilities of the kingdom of heaven.

Considering that this is the hour in which Heavenly Parents are present, Father is with us, and the Spirit of Absolute Good Spirit joins us and serves through our lips, we pray that this will be a time of prayer, filled with the grace of Spirit and Truth.
