Summary

When the sincerity is gradually accumulated, the eagle descends from heaven, and when you hold this eagle, you pray with sincerely sincerity, you will receive answers from heaven. Moreover, if you give your sincerity, the blade turns into a ladder, and if you put your sins in more sincerity it becomes like a mountain, and you reach a state where the absolute Holy Spirit is always Mother set up the standard to win the special seishin 700 times, and the absolute good spirits will be present with her, praying for a fresh start. If all the churches in the whole world cross 700 times, mind blowing ministries of the Spirit and Truth will take place, there will be explosive restoration.

40 day trainees testimony

Great mom of her only son who grew up loved. "When you go to the spirit world to see your father, what will you say if you are asked if you are going to report that you have left mechanical engineering, or how much you helped for your mother in her golden age?" He said, and made him participate in 40 shu. However, he did not understand the meaning of training, and thought about 40 days passing quickly, but as he worked hard, he touched his mother's feelings and shed tears, and was able to reborn into a completely different person in three months. He proved the fulfillment of his saying, 'Shurenshe is in your mother's womb, a base through which individuals, clans, peoples, nations, and world can re-born.'

Proof of America II (my mom testified yesterday)

He left his home for 10 years thinking that the church had taken his family away, and lived off alcohol and drugs and suffered from various spiritual illnesses. However, her mother never lost hope, believing in the phrase 'Tenshinni is hope' and devoted her all. Then, with the help of the spirit world, he returned to his father and mother through a life-and-death incident, and participated in 40 shu. After hearing the heavenly voice saying, "I need you," I gradually became reborn into a new person and participated in 40 shu three times. While clapping so hard that my throat was dripping and bleeding, a miracle of being completely reborn occurred. From now on, I decided to become a person who transmits the benefits I received and participated in the 3rd U.S. training of spirituality.

July 8th is the third anniversary of the murder of former Prime Minister Abe, and until this day, it is the 100th day of special seishi, and in order to achieve a reversal in the spirit of "upside down and down," foods from all over the world cheered for Japan by singing "Mishi no Kyo no Kyo" (song of support) for Japan I hope that the Kami Nippon Shokuguchi gives strength. Prime Minister Abe must have a standard for saying congratulations to heaven's providence on earth, and become an absolute good spirit in the

spirit world and make sure that the gods of Japan occur. If those who lived together during their lives do not run away, but become righteous men on earth and leaders who stand against persecution like Prime Minister Abe in heaven, there will be a great miracle gust in Japan.

As we were told if we don't shout the stones will, the parliamentarians have emerged to stand up and speak out. If we raise our voices, the rocks of the world will raise their voices, and the whole people will accept the greatness of your father and mother. If you pray at Tenshin-ni, rumors even rise up to the spirit world, and spirit gods start to act. You have to pray hard and move the spirit world and work hard so that Father can go forth. If you establish your faith upon faith through the evidence of Tenshinzai, you can win through faith no matter what power of death approaches. If you cross 100,000 people all over the world cry out with one voice, Father will raise a surprising act of spirit and truth, and unify Korea, a united world, and a united family of humanity can be established in the land of freedom, peace, unity, and happiness.

What a word from our Heavenly Father yesterday

"There's a reason why the spirit world can't act." Must find and find out the reason. Lack of conditions and integrity prevent us from working. There are some things you have to offer to Satan if you can't take responsibility. When you are willing and devoted enough to put your life on the line, Heaven can receive it. There are many problems left to sort out. There are too many blessed families that have not finished their ancestors. Entangled problems of our ancestors must be solved through our earthly descendants. In this golden age, we must complete the order and leave achievements that can be remembered by future generations. If you come to the spirit world without being able to leave anything behind, all that is left is lonely thoughts and loneliness. Only by attaining true fathers can we go to a position where we can be glorified forever.

The words of the request of Mr. Noshin

"Holly Mother Han, I must do my best for my mother. You have to fight to protect your mother. We only have one way to go, don't let the world's rhetoric coverage sway you, just walk it. Gotta allow Heavenly Father to be in office. We need to stop humanity from committing any more crimes. Every crime committed by people in the world must eventually decrease by every ethnic group responsible. Bearing in mind that there will be decline if we do not take all responsibilities, we must become children of Heaven who fulfills all responsibilities while carving in our hearts what paths the central characters of providence and the central elected people have taken who could not take responsibilities in the past. "\

In Tenichikoku 13, when we were living in worship of our creator Heavenly parents, we decided to set out all our mistakes in the past while entering the shrine of Tenjin-gu Shrine, to make a new beginning by sorting out all the mistakes of the past and performing a holy In order to enter heaven you have to be fully in charge of your Heavenly Father. Heaven cannot deal with a man who is asleep to two masters. "Love your sons and daughters now as much as you will, when you become perfectly sons and daughter's that our Heavenly Father can. "The mother's prayer will be fulfilled. Heavenly Parents can't play if you still have doubts or grieve for your mother. If Satan ever gets a condition, he must sort it out quickly. I cry out with all my sincerity that Heaven can reach out to this people, and I pray that today's prayer meeting will be where the Absolute All Spirits who have ever been blessed can engage in their heavenly affairs.
