Summary

At the time 1325, they said that in the underworld, the Chewan Navi troops would be formed and active, but now the people participating in Holy Mother Han's special seisei training can be called the Chewan Nabi troops on the ground. Every day can develop if we are all to feel how the subjective celestial and subjective terrestrial worlds resonate and move towards unification. Today, 62000 people are gathering all over the world for a great revival gathering.

Today we had a special guest, 17 descendants of Philippine 6.25 warriors came to participate in a week-long training session and presented a cup of appreciation to Holy Mother Han True Mother. "Holy Mother President Hang Korea, you have ignited a light of hope in the whole world with your unchanging devotion for peace and unity." The love and sacrifice especially for those deeply injured in the Korean war has touched me deeply. The president's benevolent leadership and mother's sentiments remain a light for all mankind today in South Korea. Descendants of Philippine warriors who fought during the Korean War offer a cup of thanksgiving with grateful hearts in deep respect for the holy sacrifice of the Governor

and his vision for the future. "Philippines has the third largest ground troops after the U.S. and the fifth largest number of people in scale, causing many casualties. The United Nations forces who participated in the war on 6.25 were descendants of glory, who were enshrined in Chido-an. We are entering our golden age on the foundation they built. As we live our lives day by day following our true parents, Holy Mother Han, the United Nations Army risked their lives fighting to protect our true parents, now we are asked what have you done? In order to answer that question, I and the special trainees of Holy Mother Han must be completely united with my mother, strive to fulfill my mother's dream, and devote my sincere sincerely.

Today the Global Foundation Chairman will be ministering the message of the House of Tenmu. From the spirit world, father and Noshin-sama have heard, "Pray like Anghoyoru" many times. Recently, the second generations have been praying more intense prayers. Confirmed what kind of mind we have to move forward in order to win the second half of 2025. Moving forward as one with Holy Mother Han and miracles happen. Why Tenshinken prayer is important? To enable true fathers to move in order to create an environment that should be spread for Heavenly Fathers. Father has to have the experience to go. For this reason, one must devote themselves to the spirit world while commanding and praying for their names. My son, who hadn't attended church for ten years, heard his mother's voice not just once, but three times. At some point, when the frequency is right, your father will go out and an officer will take place and you will hear voices from the spirit world. You have to believe that. The unification of North and South is done by Tenshin Seijon. Former Prime Minister Abe went to the heavenly world, but the one who gave his life in testament to Holy Mother Han. You have to offer your name prayer at Tenshin-ji and ask them to go.

I don't think that people are doing it, but I feel that there is a resonant phenomenon happening, not the praises of Tenshin Choir, reports of the patrolists The subjective celestial world and the subjective terrestrial world have progressed toward unification, and it has to be advancing further and further progress from yesterday, and this much more than last month. Too many people are at a stop. You have to work harder on Tenshinya. If there is a church that has not served, let's unite as one and start tomorrow.

The first Tenshin Seisei XX Church shouldn't be embarrassed. If you begin with absolute faith, you will receive all 1340 times, and the later one will come first.

Now at this time, I have to sort out all my various mistrusts and miscellaneous spirits and experience the love of Heavenly Fathers and tears come down. And we must know where greater grace is there than this, that there is no greater joy than to be in the place of receiving the love of our Heavenly Father in person than any material pleasure in the world. Instead of seeking the responsibilities of the world, it is important that I am able to fully embrace the love of my Heavenly Father, and I must live my life on purpose. What happens when heaven opens up, but we don't put ourselves in a position to receive the love of our heavenly father. The central spirit still sits inside of me, married couples are fighting, complaining and complaining even when I go to church, I can't be a spectator when my mother has serious circumstances. You have to pray with Jesus in Gethsemane, and have the fortune to win the position of the disciples who could not pray.

Centered around the office where your father is the director, it becomes the nucleus, and it becomes the power plant, and the surprising officials of the subjective celestial world go around, and the amazing officials that move the world occur. When we unite as one, there will be a role of heavenly authority. Former Prime Minister Abe also acts as well. Absolute good spirits, UN troops, and sacrificed spirits become officials glorifying Holy Mother Han. The blessed ancestors also played a role in their hopes of doing this Tenshinzen in order to be recognized as having helped their mother in any way. I have known my true father and mother, whom I did not know before, through Messiah, the blessed household of the earth, and now in the spirit world,

I am waiting for you to command me what I can do to help the earthly people. Until now, evil spirits have come down to the earth first, causing depression and panic attacks to make earthly people understand that the spirit world exists. I have seen people possessed by spirits reborn into new humans through Tenshinken Seishin. This is the time to organize the evil gods' techniques and fulfill the will of heaven on earth through the service of the good gods. If we move forward with absolute belief that Holy Mother Han's power will emerge at this time, then there will be exponential roles worldwide, centering on God Korea, God Japan, and God America. Heavenly dreams will surely be fulfilled when your mother is alive. Praying with absolute faith today, I pray that this time will experience our Heavenly Father taking charge.
