Good morning to you  
I hope you're doing well  
1348th Tianxin Garden is all night sincere

Summary

Impressions of the UK Missionary II Korea UPA

"The spiritual practitioners did street evangelism with one mind and one mind. I felt a greater power than the past 100 days of evangelism, and now it's time to experience the teachings of my mother. When the spiritual practitioners and we missionaries sang praises in the streets together, many people applauded, and we received a lot of support and love. As a result, 23 targets participated in the Korean culture event on the following day to experience the amazing acts of heaven. At that moment, a word that came to mind, ""You individuals are small, but if you work together as one and reach your goal, you will definitely achieve a united Korea, the dream of Heavenly Father and Mother, the dream of True Father and Mother." I deeply embarrassed that this word is 100% true. My mother is heartbroken that there are so many people around the world who are still living in pain. When I listened to the deep talk of people who are not externally, I realized that they are compelled to preach. From now on, I will hold all the enlightenment I received in this spiritual training session, and I will do my best until the day that I will

love England with my life and be pleased with my Heavenly Father and Mother. "

**Thoughts from the Directorate of Education, Philippines Headquarters**

"My beloved true mother, this time I visited with the Philippine 6.25 participation valor clan association. 6 days lecture on principle, true father and mother life course, given a noble opportunity to convey the value of blessings. While giving a lecture, I felt strongly that the descendants of the warriors are a noble cause prepared by our Heavenly Father. Many participants expressed their deep gratitude for their grandfathers defending South Korea from communism, and especially for protecting their true father, Holy Mother Han true mother. A descendant, with tears in his eyes, was moved and told, "This is the first time in my life that I have received such respect and respect and been treated in such honor." When Chief Corporal Moto Hori said, "The names of the old men of the UN participating brave warriors will be kept in the children's dormitory and honored forever as those who sacrificed their lives to protect their true parents," the participants were surprised, moved and spared no words of deep gratitude. The Philippine 6.25 Participant Valor Group president plans to hold a pilgrimage to the Holy Land for the descendants of the UN Participant Valors in South Korea again this December, and plans to have more time to listen to the teachings of the True Fathers. We intend to sustainably commit correspondence even after we return to the Philippines, receive blessings and actively lead the ancestors to be blessed. I want to see you my beloved Holy Mother Han true mother. I love you dearly. "

**Thoughts from the Asia Pacific Church Growth Directorate**

"First and foremost, I would like to offer my deepest and genuine gratitude for the utmost devotion and sacrifice of my true mother every day." Only Heavenly Father and True Father can fully understand the deepest feelings of your mother, and I myself feel genuinely sorry that I can't estimate all of your true mother's feelings. Thank you very much for granting us Tenshinsai as your last gift of love despite this. Tenshinkai is the only place where I can most deeply resonate with my mother's sentiments, and I would like to thank you once again for erecting HJ Tenshinki as a heaven for entities on earth. Everyone who

steps foot here cannot deny the existence of Heavenly Father, they will naturally feel the love of Heavenly Father and True Father. Dear beloved mother, I am deeply grateful for allowing me to lead the descendants of the Philippine 6.25 warriors to this sacred land today. I feel this in itself is a blessing, miracle and great grace of heaven. 75 years ago, the remarkable content resonated with my heart that the warriors who gave their lives on this holy ground fought over 7300 in the underworld and 47 remaining on earth, and their descendants were steadfastly united with Holy Mother Han True Mother.

All plans for this pilgrimage to the holy land of the descendants of the warriors began with a miracle from heaven. Last March 29th, the President of the Philippine Warriors who participated in the Kaping Hanjo Cultural Celebration also participated in the Tenshinsai All-Night Seishen, where he had a surprising spiritual experience. The atmosphere of Tenshingen was deeply moved and opened by the kindness and truthful prayers of brothers and sisters from all over the world. The chairman prayed with tears and deeply felt the blessings of heaven, and confessed, "I felt a whole new dimension of grace and emotion that I had never experienced in any religious group before, for the first time in the family union that I and my mother." I had a desire to bring not only myself but also many of the descendants of warriors to this blessed place, and this pilgrimage came true. I was told that when my descendants come here, they will understand more deeply the meaning of the blood and tears that their ancestors shed in Korea. Beloved Holy Mother Han True Mother, I am overwhelmed and grateful that words cannot express everything right now. It is a miracle that the warriors who fought in the sacred war according to the will of heaven and protected their true father were joined together through their descendants when their true mother was on earth. My deepest gratitude to my true mother. Please don't worry about anything. So that everything that your mother intends to accomplish may be fully fulfilled, I will come with you with all my heart. This era is the true golden age. You can never miss this precious time. Through Tenshingen, I will move forward without hesitation to become one with my mother. I am completely united with your mother's feelings and will put my all to bring you absolute victory. I love you my beloved mother, my wonderful mother, my true mother forever and ever. "From now on, if descendants of these participating countries come to visit the children's school dedicated to their ancestors who participated in the great holy war and learn the life course and principles of true parents, they will cry and be moved and automatically become the sons and daughters who can act more parenting to Holy Mother Han than anyone else."

A Korean senior pastor was retired and stayed at home, but the moment he held the Tenshin Lyrical Staff, a role in which his conscience awakens, and said, 'We must not miss this golden age for the return of Kahei.' "If you retire and sit still, you'll end up being an eternal affair." He and his wife joined the 40-day training session. Every day I walk barefoot on my mother's path and pray for her counsel, and when I call her Omma, I cry, and I realize that I have been able to truly be reborn like a baby. When you live a prayer life shouting "Aboji Moni" because of the decision to live life in death, it was decided that you will mobilize the spirit world to evangelize and offer the best gift to your mother in order to return to Kahei. Retired age, but once again newly started with the heart of an infant.

Churches that have no reports of father's dispatch should be braced up. I need to hear more voices saying dad's been dispatched and officials have happened. If a man who can testify what kind of prayer is made, the directors of the training department of the academy of spirituality, sees this man and prays diligently in the likeness of him, Heavenly Father and True Father will be instrumental at any time and anywhere. True fathers are the center of goodness, the center of truth, the center of words, the center of conscience. The age of living with her true parents in heaven is 13 years. Those who realize this great mark language through prayer will live in his time. I pray that today's prayer meeting will be living in such times.
