Summary

A small country called Eswatini, in the middle of the Republic of South Africa, is also celebrating its 100th Tenshinki prayer. Amazing how three Top Guns are working hard in a country I don't even know their names.

Our prayers are not just our own prayers, but our prayers called resonant prayers. Whom you resonate with, you must pray a prayer that resonates with the Heavenly Father through the sentiments of the Heavenly Father. Heavenly Fathers are intangible and unperceived, so Heavenly Fathers care for their bodies and come to earth to show us. We listen only to the course of our lives, so that we can maintain the feelings of our parents and parents throughout the course. When you pray in resonance with your feelings, the power of your father and mother comes into your soul and body, resonating phenomenon, and a great power emerges. Be therefore diligent and the favour of heaven will come. A person who has had a prayer

life understands, but when he has a prayer life comes out great and great power. When great power comes down, fear, troubles, and worries disappear, power of spirit, power of love will overflow, and you will have a sense of confidence that you can love someone you have failed to love, and even when you carry your cross, constructive power, absolute faith, absolute love, absolute obedience will flow out, and power that you did not have in you will flow out. So the power of Tenshinkai prayer is not the power that was in me.

When he came to the ascetic school, he was terrified and trembling in despair, but when he prays, his strength comes out and he fears away. I believe that Holy Mother Han's special seise trainees feel that kind of power. The background of this power is the spiritual world, including Heavenly Parents, True Parents, and Noshin, Koshin, and Taibo. There are two generations of underworld troops, the name is the Chewan Navi troops.

"Chewan Navi unit, march on. Holy Mother Han's love goes along cheering at once. In spiritual warfare, the armor that Satan has is stained in blood, but the armor we have is the prayer and love of the temple covered with light. You cannot advance just by doing Tenshinji Seiji. We are those who are armor marching for the heavenly providence to protect. Who has no name, no light, but who operates for Holy Mother Han, whose whole armor is the grace and love under the heavens, and who has become one with Holy Mother Han. No matter how close the fate of decay tries, it will become a strong one who cannot approach and cannot penetrate. "

Words I wish for the 2nd and 3rd generations

"To all the 2nd and 3rd on the ground, please don't give up. We too move forward in the spirit world

without giving up. Everyone, please don't ignore your father's feelings. Know the love of your father on earth. We are spirits with grudges. My father and mother who gave birth to me without being able to firmly scold Holy Mother Han on earth, and the spirits with grudges that I can't firmly cold. However, my father and mother gave me the opportunity to fulfill my responsibilities in the spirit world. We are moving forward. We also march in order to fulfill Holy Mother Han's dream.

Just as you all cried tears from feeling the infinite love of your father and mother on earth, while listening to Koshin-sama, we also gazed at the life of our true fathers and parents. We don't know how much we are to feel the life of our fathers and parents who gave birth to us, their sacrifices and love.

Our father and mother, don't worry. How can we pretend we don't know your dreams? Fathers and mothers, don't worry. By our diligence we are now moving forward by forming a strategy, setting a stage, and creating a team to protect Holy Mother Han, the III Blessings on earth. I am lacking but pressing on so that my brothers and sisters on earth can develop their dreams more. We are the troops Chewan Navi who are moving forward fulfilling Holy Mother Han's dream in the underworld. Traveling around the world, so that all the blessed children of the world can return to Holy Mother Han's bosom, some are contending with evil fortunes using their prayers and love as spears and shields, others are helping the blessed children of their earthly parents to realize their dreams using the abilities, knowledge and wisdom they had during their lives, and others are educating the blessed children of earth to instill a sense of compassion. Don't worry. We fly all over the world and stand up in the way our fathers and mothers go, Chewan Navi of the underworld. Fly away for Holy Mother Han with the light of your father and mother's spirit, all over the world. Therefore, let us go forward. Let the underworld and those on earth unite and fulfill the dream of Holy Mother Han, the true mother of heaven and earth. "\

It was said that the fathers of the spirit world expected about 556 to 564 people to attend the Holy Mother Han special spiritual training session, but currently 591 people have attended the event.

Paraguay 40th Certificate

When he was 16, he learned that he was the second generation, and he worked hard, but when he asked 'why I was called', he ended up participating in training sessions for two years without an answer. I've always had the question why I pray loudly. A small voice cannot penetrate the darkness. This time, I wanted to get a clear answer, and when I prayed a prayer with careful heart and madly burning sincerity, I was able to dialogue with my father and understand my mother's feelings. Become determined to be a herald of love and never give up for your true mother. The phrase, "Command the spirit world and pray" is accomplished, surely answered. "Through Tenshinshi prayer, we can solve problems that cannot be solved by human power" must be fulfilled. We must explosively open the gates to restore the church by practicing "Go forward in Spirit and Truth". If you believe in his word, press on and pray to him, receiving the command of heaven, heaven will surely take charge.

The rain since yesterday was the first downpour in 200 years. If you resonate completely with that sentiment of Heaven, you can feel the power of powerful and great power that you have never felt before.
