Summary

When I hear the voice of the second generations of Japan crying out in the streets, I remember the Bible saying, "If you don't cry out, the stones will cry out." When Jesus says cry out there is no one to cry out, the people of Israel were put to the test. Even in Korea, when we cry out, more churches are praying like war. Victory in prayer is the realistic victory coming closer. Even when we are in trials, the more we are tested, the more we go forward in faith.

It is in times of persecution that people will come to accuse you with verses of faith. A poem of a poet

"Mother's crying is not over. Holy Mother Han, the most chosen and loved one in Heaven. A true

mother who holds everything in the world with love. Satan makes the unbearable final evil while gaining the power of this world. But the silence of One Omma was never a defeat, it was the quietest wisdom of heaven. Truth flows with every tear of a true father. Love echoes in the silence of a true mother. The sleeper is now the time to awake. BROTHERS WHO LEFT HOME, COME HOME. The last tears of a true mother will be the full armor of heaven, revealing the truth will cover this world with no falsehood. Wisdom please. Give me courage. May this song of sentiment blossom to the end of the universe, a nation who holds grudge for their mother. "

This poem is a testament to your mother's life, a prayer that sways the conscience of those who are sleeping, and summoning the children who are loyal to the end.

Today, the spirituality trainees devoted 12 hours of praise and prayer. As long as they give their lives to march forward for Your cause, nothing is impossible for us. Believe that the kingdom of heaven is fulfilled on earth not far away. The results of diligence must be seen. You have to go through a surprising affair while praying with a taste of elaboration. It was reported that she became blessed by writing a letter of sympathy and praying 36,000 times for her son who had been eating dormant for five years.

**Father's message**

"How important is the responsibility of an elected blessing family. Fulfillment of responsibility keeps the nation and the world alive, and failure to fulfill responsibility keeps the state and the world alive. Are you going to step back and say things are difficult now. The underworld is at war, if the world threatens us with guns, we will win with true love using Spirit and Truth as our weapons.

NO MATTER HOW PAINFUL AND BLOODY TEARS AND SORROWS WE MUST PROTECT HOLY MOTHER HAN WITHOUT GIVING UP. Holy Mother Han's authority is revealed, the world will act evil to bring down her light. As it is, the more powerful we must move forward as one. The future generation is moving forward strongly. Every family blessed should be a hedge of protection for them. In this way, unless the first generation, second generation and third generation are united and protected Holy Mother Han together, the unification of North and South will slow down.

This country cannot be one with Holy Mother Han, without the sweat and tears of love and diligence of families to keep it alive, and the practice of fulfilling responsibilities. Whatever trials and tribulations come your way, you who have been elected must never give up your spirit, your passion, your efforts to fulfill your responsibilities, to become one with Holy Mother Han. The noble sacrifice towards the heavens will be kept wide and wide in the coming days, and she will be the child who fulfilled her responsibility by blooming a ferocious and true flower of love in the history books of heaven. Now, the spirit world is at war, and the fortunes of this country remain in heaven, and you will be responsible for it in consonance with the spirit of heaven. "

Listen to your father, we must be ten times 1000 times more devotion. Heaven's providence beckons and takes away. If we are shot they can take back many times more so if we shout we will win. We must not remain silent. The final struggle is a struggle by the judgment of the verdict. Lend your lips for Heaven will cry out through us. Leave your lips to your father, Noshin-sama, Koshin, and your seniors in the spirit world. Don't be the mouth of sighs and the mouth of disbelief. The second generation, who went to the spirit world at the age of two, grew up in the spirit world and became a member of the Chewan Navi unit to help Holy Mother Han. The spirits are resonating with the praise of Holy Mother Han special trainees today. If members who are joining online also pray intently and resonate, heaven will pour new fortune on earth from this night. All men shall know their true fathers and marvel at the knowledge of Holy Mother Han. Father, Noshin-sama and Koshin are here. Heaven joins him who cries. "Decide to life and death, put in all your strength, practice and practice, I pray for you to be brightened my country." ", Father wishes you all. I hope that we will all be praying with that heart.
