Summary

I have faith that the more sincerity I accumulate, the more visible achievements will be achieved, and I hope that I will devote my prayers and diligence to be able to produce visible achievements through Tenshinshi Seishin. The return of dormant worlds and dormant eating is the fruit of your sincerity. How many people never submitted applications for membership, or who received blessings and entered public office but went away. Believe that this is the time to pray with tears and earnest prayers so that your father can go out of the spirit world and repent and say, "Your mother is being tested because we have been blind and lived." Today's all-night devotion, which marks the 100th day since the victory of the temple entering the shrine, has a lot of meaning

When I went to junior high school, there was a famous grave there, and there was a story that the grave guided me. I heard a story that someone thought there was something in the grave and went to bug it, but suddenly a lightning bolt fell from heaven and ran home. As your mother was going through hardship, there were hundreds of thousands of lightning strikes nationwide, and heavy rains fell unlike anything we've ever experienced. The Korean people are in tears right now. If we'd repented sooner and cried so much tears that the floor wet, I thought this wouldn't have happened. Through this we must once again

prepare our hearts and prayers and devote ourselves to our living and working Heavenly Father and Heavenly Father will be sent out. When it snows, we think about promotion, and when it rains, we think of Noshin. On 3/29, it snowed and rained during the Lyrical Culture Festival, and I felt that Oshin-sama and Koshin-sama were involved and received great benefits.

This time I think the rain that fell is tears of Heavenly Father. Throughout 5,000 years of history of the Korean race, the true father and mother were victorious by sending their single daughter with all their diligence that the Eastern Sea and Mt. Hakato were victorious, and 50,000 young youths of the United Nations army came and protected them while following the sacrificial path, but until now they heard the truth of the providence through recurrence theory and the Korean nationality poem, but they couldn't make the Korean race understand. Remembering today's reading of the reading of Kunanjoku, and realizing that this country is the fatherland and elected people of Heavenly Parents, who receive heaven's love, it must be a time for new determination and determination to fulfill our mission. If your faith is great even in trials, after trials Grace will surely come.

When your father was sent to prison in the 7.4 incident, 300 people prayed together and devoted themselves to tens of thousands after he was released. When I went to Danbury in America too, I thought it would be over, but then a surprising event happened that 12,000 Christian pastors supported their father and mother and came to Bonneckol Holy Land. There is always grace after trials. This trial is a trial that transcends a new history for Heavenly Parents to rule along with the entering ceremony of Tenjiku Tenichi Shoden, so there will be surprising benefits in the future.

If you pray with all your life, you will feel the amazing grace of Heavenly Fathers ruling over your private homes. Moreover, your country will feel that heaven is directed and administered. That's why we must shout. All the paths your father and mother walked past were the paths of true love that loves revenge. If you don't go to this people who cannot understand, cry out how amazing and wonderful things your parents have done so far, if you sit still, you will become like a monk and not be able to speak. We must be able to participate in the new history by shouting out the word, fervently praying, praising,

offering sincerity, and fully moved by the fire of the word, even the earthly people and all the spirits. Holy Mother Han special spiritual trainees and academy trainees prayed diligently after being caught in rain for more than 12 hours the other day, and on the weekend, they gathered together in Tenshinshi, and prayed concentratedly and prayed twice and three times more than the whole night of devotion.

Two generations must advance into the world as absolute heirs with absolute faith, absolute love, and absolute obedience. There are many people who earn a lot of money among the two generations who don't come to church or hide. But when years pass and you go to heaven it means nothing. Persecution and afflictions become a gift for entering the spirit world. When you have a relationship with the spirit of feeling, you can't eat food when you go to the reclamation, and you can't help but call on Heavenly Parents. Heavenly Parents cannot come if there is no connection of feelings.

A unity church is a church that teaches unity. Happiness is only when the mind and body are united, and true happiness comes when such a couple meet. Living with someone whose mind and body is not unified is unfortunate, so until now human history has been a history of unfortunate. Paul, the greatest missionary of Christianity, the man who confessed faith that true heart and evil heart are contending. Where is happiness and where is a happy country in 2000 years of Christian history. Here on earth the Savior Messiah the True Father and Mother to guide us to happiness. Family Union is the one and only organization that can educate on family unity, clan unity, national unity, and that can practice North-South unity and towards a unified world. Who can unite Korea and Japan? Who can unite the hearts of Koreans and Japanese, the hearts of one brother, the hearts of a couple? Who can link Africa and Europe in peace? Only true parents can do this. It is the true father and mother who makes all humanity reborn as God's children, and that is why Seihei was created in your mother's womb.

"If the Unifying Church is in a position to overcome challenges, it can exponentially develop." The fact that young people of the world gather to receive education, bless families receive training, and advance in the world can be accomplished in this Qingping land, is surprising that every country in the Republic of Korea can be proud of, not only nation and nation can be proud of but also Asian and world humanity can be proud of. 40 days after my father's consecration was a really important period for me too. When I spoke to him, "I will return to the founding church in spirit and truth, living breathing church movement," my father said, "Omma, thank you very very much." "

In order to advance with the divine spirit and truth, your mother started this Tenshin no Sori. Although I was told the only words, 'Let the spirit world be dispatched through Tenshinshi Seishi', I have heard numerous evidences that the spirit world has been dispatched, and I have come from faith to faith. If this faith grows stronger, it can move nations, move the world, and hold all mankind in the bosom of Holy Mother Han. All brothers and sisters of mankind under one father and mother will have the very name of the World Peace and Unity Family Union, and if all the spiritual men and thousands of years ago will receive salvation and become one son and daughter under the true father and mother, the name of the Celestial Peace Union will be fulfilled, and finally a real Celestial United Nation will be fulfilled on earth. Heavenly Father who lives will surely establish his kingdom. Since no nation on earth has reached therefore Heavenly Father proved and finally advanced the eternal nation, the united nation of heavenly peace draws nigh, I will not be discouraged no matter what tribulations may come, believe that the living and active Heavenly Father is in me and stirs my spiritual cells, I hope today will be a time to pray and experience.
