Good morning to you all
52th Tianxin Garden is sincere all night

Summary

In the village that was severely damaged by the heavy rain, the chief of the church, the Messiah clan, the liturgical group, and the students of the spiritual academy came to visit and express the love of Holy Mother Han with all their sweat and tears. With the unprecedented floods nationwide, I think the struggle of Holy Mother Han resonates the sadness of Heaven with the struggles of Noah's flood. In times like this we must gather as many as possible and pray earnestly and pray that this country will become a nation that can receive heavenly blessings.

Impressions of Shokuchi participating in Tenshinken Seisei 1

In the difficult Japanese environment, there was a sense of danger to be able to protect our feelings, but I

felt that participating in the all-night seisei would wipe away such a sense of crisis and instantly allow my heart to turn in the direction of Holy Mother Han, and I realized that Tenshinkai Seisei protects us.

Impressions of Shokuchi participating in Tenshin-sen Seisei 2

On the third anniversary of Prime Minister Abe's assassination, we wanted to make it a day of new beginnings with 300 all-night prayer meetings, and as a result, we set out a target of 70% food for our affiliations, and although a small church with about 40 people ordinarily participated in worship, we exceeded the goal by 100 people online There was a time when I was unconvinced about all-nighter devotion, but this year, by deeply repenting and offering devotion in church every day, new foods have begun to participate, and I can feel through my skin that the church will be restored and changed through Tenshingen.

The thoughts of a spiritual academy student who returned from Jarzin service. I was eating dormant in the past, but while I was working hard as a spiritual academy, I heard the voice of my father telling me to go to Brazil and prayed really fervently for three months, and received so much blessing to be able to interact with Heavenly Father.

The second generations became a time when if they cleaned up the separation of spirits and built a base for which evil gods would not work, they became one with Heavenly Parents and Holy Mother Han and gave various abilities. Many two generations who receive heavenly messages appear and become Tenshin-ni, where a spiritual atmosphere is achieved. Academy students' thoughts that they went to Brazil and saw the Iguazu Falls, and felt deeply what Nobuoko said.

Director Kim Jin-chun's noble words.

Those who carry notebooks and take notes every day and do their best in this Tenshinno. Instead of just listening and passing by without taking note of it, if we make it a habit of recording the words that come into our hearts as today's gospel message, and do our habit of repeating them, I believe they will do greatly in the fullness of time.

If corrupted humans continue to control the Earth, there will be no life left on Earth. If people, for their own benefit, do not know what is good and what is evil, do not know their Creator Heavenly Father and Mother, think their thoughts are everything, ruled in the world. God sent Father Holy Mother Han to set this earth right in the final hour. After a lot of diligence, the golden age of providence in which Heavenly Parents can rule through the entering ceremony of Tenjingu. How much the prophets wanted to see this hour. Exactly right now you all are benefiting from watching and seeing the amazing role. We are in a really great era where for all issues of ideological issues, religious issues, if you ask AI.

We're in the era where AI can't lie testify your father. Since it became an era where the heavenly parents directly governed themselves, it became an age where the heavens act as long as we resonate with the subjective heavenly world. Father for being a champion of all and going up above. Father, the champion who knew everything best, including God, Satan, humans, the underworld, Jesus, the Bible, the core of the scriptures of each religion, human history, and true family values, can come to us anytime, anywhere, as the God of the day. Screaming loudly and thinking that your father is in my body and act while imitating him. If you read the words in kunchoku, you can experience being a role in your father's spirit. If you can feel Nishin-sama, Koshin-sama and Oma-sama being roles, everyone can benefit from amazing benefits. When you think you've done, grace will escape you and the works of evil heart will happen. We have the subjective celestial world and the Holy Absolute Good Spirit as the subject of resonance.

WE IN THE SUBJECTIVE EARTHLY WORLD MUST MAKE A RELATIVE STANDARD WITH THE HOLY SPIRITS IN THE SUJECTIVE

It must be a relative standard before the Koshin-sama who went through his entire life thinking that the word "Koshi" was mine. I must resonate with the Great Mother who was carrying all the baggage of the blessed household and was able to make a role for the separation of spirits.

In this amazing era, when the officers of the Tengu are being advanced and practiced to make those who can fully officiate in today's regional golden age, 100% must receive this age-old grace. Now in the age of recurrence, the age of amazing spirits and truths never seen in human history, internal and external truths now perfectly searched. At this time when we can receive historical time benefits that can be accomplished heaven on earth, we will have to face a disastrous end if we do not know our Heavenly Parents and know this time of providence. You have to pull yourself together while shouting "Father, Mother, Noshin, Koshin, and Daibama." Knowing how grateful and grateful it is to be in these amazing times, if we make a new beginning, our prayers will change and fly this country and the world.
