I hope you're doing well.
1353th Tianxin Garden is sincere all night

A summary of the long-lasting words

Today, I listened to AI lectures made by the Mental Academy students for 1353 times. From now on, theoretically, AI lecturers seem to be able to give lectures, but in reality, the lectures have to be centered on true love and resonate with feelings, so I don't think people with flesh can win.

Impressions on Japanese second generation male eating

Workplace circumstances, I thought it was very challenging to participate in special training with young children, but miraculously guided and environmental conditions were able to participate. While living a happy life as a blessing second generation family, there was a question about whether he was finally responding to heaven's wishes. However, I was touched by the ramifications that the reason why it is not true is because the situation is not difficult. I thought I have been given the opportunity to attend this training this time since I don't live by heaven's sincere guidance. A big experience through the special hand. I had colon surgery a year ago and felt ill at least once every two months, so when I underwent a special hand, I felt the presence of the central spirit clearly. My hand was in so much pain that I wanted to scream for it to stop, but I thought that my father had endured any more pain, so he kept shouting, "Aboji

moni, Saran hamnida, Kansahamnida." And gradually my mind and body feel lighter, and I clearly feel something slipping from me, and the pain disappeared. I don't think the heart that wants to scream was my own, but a central spirit that was relative to depravity. My body and soul have been purified through this time, and my stomach has definitely improved. I could agree that even the pain of my illness was a loving environment to feel sincerity. I've always thought about the changes in people, but I've realized that it's important to ask myself whether I'm becoming a suitable person for this era. This training session was a defining turning point in my life.

Certificate of Philippine Shuyo Student

Your mother proved that you are the first world, but when you see your feelings, you are the second world. Mood is all that matters. On a day of hardship that cannot be forgotten, I learned this is how devotion is by being beaten by rain all day long in prayer. 12 hours a day, 15 hours a day, and eyes swollen up with tears, I got to know my father. When can we pray like this. This time, the special trainees were beaten by the rain and inherited their great father's feelings with tears in their eyes like a waterfall, and I believe they were able to feel the sadness and sadness of their heavenly father. That sadness is the driving force behind your victory. If the pure waters of the second and third generations think about your mother's struggles and blood-pumping resentment is the driving force, you have nothing to worry about. You will succeed. If you are linked with the grudge of Heavenly Parents, you will not retreat at all, and you will be forced to become an illegitimate child who can always advance courageously. In the same way, this must be a period of resolve that all foods can bear passionate grudges in their hearts and stand up to create a united Korea and a united world with true love.

We've been badmouthed our whole lives. How often do I feel accentment on TV even now? Nevertheless, he never once scolded and returned it with a coffin. For thy father's steps were. Our path is the way of our father and mother, who have endured and endured the fortune of loving favor, despite the millions of regrettable things. I came this far forgiving with genuine love, not returning favor with resentment. Heavenly Fathers and Mothers who live and work are with us. No matter how enormous the persecution there was, the elders of the first world would never do anything to clear their grudges. I have persevered and tried to get rid of my depravity and follow the path of true love, so that end is not far from now on.

Heaven surely hears the prayer of the righteous. The prayers of the righteous have the power to move the heavens. Prayer comes out stronger in times of difficulty rather than peace. The prayer of the people of Israel in Egypt went through heaven, and Moses was given authority to do miracles, every day. I have come this far, hearing miracles reports every day through Tenshinzai prayer. We in this era must keep staring only at Holy Mother Han and pull ourselves together. The harder it is, the higher the crying and supplication.

A letter from Ms. Ezaki Tomoko (1250 twin), who composed a song sung by members of the Just Good Team today with the spirit world.

"Grateful to be part of the music production team for last September's house warming ceremony. He studied composition from a young age and earned his PhD in America and Vienna. While participating in the Tenshinzai prayer, he received grace, and the greatest grace is this hymn. I prayed and asked Noshin if I was qualified to do so if I could unload myself and deepen my faith and prayer, and compose songs that felt my heart. As soon as the prayer was over, the first melody came to mind. I was worried about how to finish and asked Noshin-sama again, and I got a comforting and encouraging answer that it would be okay if you did the way you wanted. I pray that this praise will give you strength and help you through this difficult time. "\

If you work hard while feeling that the music of the Heavenly Kingdom period was not centered on earthly people, but was created in resonance with the heavenly world, then everyone will be able to resonate with the spirit world. We must become people who live in Spirit and Truth, and a church that restores in Spirit and truth. Then there will be a time when everyone will be the master of heaven in all aspects. In religion, art, science, physical education, corporate entities, no one else has ever achieved as his father and mother in his life. You all congratulated me that I am the direct daughter of the father and mother. Every second and third generation should be like their father and mother, and have faith that they can do things that their father could not do on earth, and if they are all able to return the glory that all of this belongs to their father, they can make the kingdom of heaven into reality. For that reason the heavens are doing their job. "Create all environment while you are on the ground and make sure the water flows well. Therefore, Tenshinni is a place where pure water requires pure, pure, and human resources who can communicate with heaven's feelings.

That's what matters most. " said the mother. There are many two generations who receive heavenly messages, but don't think that today's prayer is done by them, but think that it is a prayer in which the second and third generation Chiwannavi troops who went to the spirit world came out as a role. The second and third generation, who went to the spirit world without being able to drink his mother's breast, grew up and became a Chewan Navi troop, and said, "I don't have my body, I want to see Holy Mother Han even if I borrow your bodies," and it must become a prayer for Tenshinshinbai to feel that I want to be able to live in this golden age when I was able to meet Holy Mother Han while keeping the principles of loyalty. You have to experience your father being dispatched and hearing his voice. In the prison in Konan, your father saw the heavenly father sitting on the treasure throne in a dream, and he was propagated. You must experience the impartation of the Father in your individual, home and church. When your mother is having a difficult time in church, she will hear the voice of heaven saying, "Is that all your prayers coming out?" Tonight, more surprising entity Holy Ghost fire must come down than Mark's attic. Determination Decision prayer and let one voice move the treasure of heaven. No one has walked a greater path than your father. Resonate with the father and mother, let us pray for heaven's good fortune to descend on the land.
