

HJ Heaven and Earth CB Training Center: World Tour Appreciation Report

Gi Seong Lee
July 25, 2025
Inaccurate Automatic Translation

Good morning to you
I hope you're doing well
1355th Tianxin Garden is honest all night

Summary

The contents of Tenai Shoshi World Tour Appreciation Report Competition engraved in my heart, and I hope for a new beginning centered on my mother's words. Mom said "I'm fit, don't worry. I will show you that our Heavenly Father is alive. I am proud of you." He spoke the word. We all need to be proud people. If we move forward together, no matter how difficult it is, we can achieve surprising victory in the golden age of providence. His mother encouraged us, saying, "I hope that we will march out for the sake of His will in the golden age of providence." More today than yesterday, more tomorrow than today, more hopefully as a marching heavenly warrior. Don't shrink, lose courage, or lose faith. If you die having faith, you can enter heaven. If you put forward advancement, heaven will see a day on earth when all humanity will praise Holy Mother Han.

Your father is not lying in Hongo-no-sho after he was consecrated, but he is alive to serve. So far I've heard many evidences of your father's dispatch, and everyone of you should go through it. Father is knocking on the door of everyone's heart but when the center spirit is there you can't enter. When you've completely empty your mind and clean clean and put yourself down and completely zero position, your father's work happens.

Father's message at 1351 July 21st

"A hundred days have passed since the entrance ceremony, but where is the destiny of this country going? Don't be a nation that causes Heavenly Father to shed tears of blood. The Korean people must hear the voice of heaven and understand the spirit of heaven. Do not waver before the strict providence of heaven, but press on toward His will. We must stand as one and raise our voices loudly before the world as the center of Holy Mother Han True Mother. We need to reveal our truths and feelings. We are a true community moving beyond religion, for the sake of the world and for the good of Heaven. They are the people of Heaven who live by worshiping the Creator God as their Heavenly Father. 100 days have passed since our Heavenly Parents entered the court. Heavenly parents don't sit still, they live and serve. Didn't your mother spoke too? Heavenly Parents will be in charge before this world. The duties of Heavenly Parents are terrifying. It will bring forth a giant wind beyond human imagination, and be embraced by the will of Heaven. The wind is the wind of spirit. A tsunami of pure water, centered on future generations.

Our Heavenly Father is enduring. She's still gripping and suing her with tears. Can't you hear me when I live and serve and lead with Holy Mother Han. He waits countlessly for his children to fulfill all their responsibilities. Our sacrifice is not sacrifice but whoring. We are a community moving forward in true love. Behind the word sacrifice is true love, true love is happiness. We are a community that has made a cause of feelings with our Heavenly Father, our Creator who can never be severed. Holy Mother Han's true mother has given all of mankind a son and daughter the cause of her feelings with Heavenly Father. Therefore we must cry out to our fathers and protect our true mother. Protecting your mother is beyond the world and the entire heavens. We must press forward with greater hope and love to oppression, not our hearts waver at condemnation and mockery. Ask diligently in prayer and heaven will answer you.

If you pray without limits, heaven will surely overturn the destiny of nations and give you heavenly fortune. Opportunities for you to be accountable through dreams and revelations. As the true people of Heaven, we must move forward with the Spirit Realm. This is the age of spirit and truth. Time to go asking if my heart and body are united as one centered on Holy Mother Han. If there is anything you cannot become one with Holy Mother Han, put it down and repent, pray and practice it with all sincerity to become one. Beyond 100 days or 200 days, when 2027 Victory Day approaches, every household will witness that Heavenly Father and Mother were in charge. For this they must become children who know Holy Mother Han's feelings. Do not be discouraged until your prayer is not communicated to heaven. We must not give up. You shall not fall apart. By your diligence we can seek out the righteous, and we can create opportunities to associate with the righteous. Your sincerity is already greatly used. The increasing degree of elaboration will do greater. I am truly grateful. For I am with you, take away the pains of the past and rise up and move forward with strength. Let us press forward continually in love, Spirit, and truth, embracing those who accuse us. Let's continually keep the heavens centered so that the role of the comeback will occur in a big way. Thank you. "

The practice of love is not in heaven but on earth. In order to be able to move your father through Tenshinki Seijin, we need to ensure that small conditions will attain great enlightenment will occur on earth. You have to know the fact that the Holy Wisemen throughout history are helping the Heavenly Father's providence. No matter how many persecutions I've had I made it this far. Don't be afraid of the present persecution. Miracles happen in no limit because of the help of the absolute good spirit. What gift do you bring to the heavenly world? When your mother was crying tears of blood, can you say you prayed for your life for her. Opening a new era where you can boast about your father and mother while testifying to those who meet your mother. All earthly life will be recorded and judged. All humanity must practice a life of love that enjoys sacrificing for greater things.

When we think we are having a hard time, heaven comes to visit us and connects with us. I hope you don't regret the hard work you've done for the sake of God. The toil of all people is kneeling. Your father's labor is more valuable than a diamond the size of a house. Never throw away what you have sacrificed in the past. No matter how hard you work at the end if you go in the wrong path of disbelief everything will fall to the ground. Appreciate all the hard work in the past, appreciate what you have come without distrusting, and move forward. I pray that this day will be a new resolve, as I decide to move the heavenly world through my prayers, cast out all forces of darkness, and let the light of heaven be upon this earth.
