**Report from the president of the Kisai Church in Japan**

More than 90 percent of the Karechu Church named after by your father and mother are second and third generation churches. On July 27th, they welcomed Nippon Tenshin Keicho and his wife on the basis where they prayed 130,000 times. 29 years ago on July 27th, 1996, the dedication

ceremony of Karei Church and this time July 27th, I felt the guidance of Heaven. At the Tenshinni prayer meeting, the president heard the heavenly father's voice saying, "July 27 is the day when Karechu is born again." On the morning of the touring day, the chief chief of the Zen Chindai dreamed that the couple were walking in the orchard, and when they arrived at the church, they realized that the orchard was planted by the children of the blessed children. The Church of Kirecho, which has been reborn through the words of the Chief of the Lord, decides to evangelize every dormant second and third generation nationwide who cannot come back. I will do all my diligence to be a blissful orchard of blessings and return the glory to Holy Mother Han, One Onma, True Mother. "

During the passing ceremony of my father, I hear my father's voice saying, "Thank you for not running away, I beg you," and I begin to do my best with my mother. Become married and live a devotional life in the church, and benefit from attending Holy Mother Han's training. On July 18th, I will devote myself all day long and resolve to create an emotional culture and artistic revolution through video and media. Already have 8000 YouTube subscribers, I believe I'm going to encourage someone who's going to achieve big work.

Certification of Nursing Studies 2

From the age of 2 to 29, he suffered from a serious disease called reproductive anemia, and underwent transplant surgery, but the first time failed, and the second time was miraculously successful, but his lower body became paralyzed. After working hard until now, attending the training sessions with all of

his sincerity, dissolved all grudges, and performed spiritual services, and offered heartfelt prayers and praises, he came to stand on the stage today. Delivered from 30+ years of agony by Heavenly Father's astonishing healing officer. Also, he was able to develop his ability as a handman. "I have never been immersed in faith this sustainably and long in my life." "Each step has been a miracle," he says in his opinion. He was able to become a great son who could testify to all peoples what great power, phase and ability of Holy Mother Han is.

From the true father who appeared in my dream, "Do you know the central spirit?" How come they don't break it. "You must know the central spirit well and organize it," and the elder received a scolding message, and shed tears and gave evidence that he had dismissed the central spirit and benefited it. We must fulfill every word given to us.

#### **Dad's only words on January 13, 2009**

"Everything is going to be alright. You can release, release, and inherit kingship. Then everything will go well. No need to explain heaven. "

Even in the midst of hopeless circumstances, there was a touching evidence that by becoming completely united with your mother, she was healed of all her illnesses and was able to stand on the stage. However, trials and adversities are present. What kind of mind should you have in those times. "Heavenly Father raised me as an only daughter and protected me through adversities and tribulations until I came into the position of true father and mother." And there were many circumstances that the history course of true parents had to cross the winding places that only you know and remember. Heavenly Father but thank you. "

Whenever we are walked through difficult moments, the posture of our mother's heart to our Heavenly Father says, "However, we thank you." Giving thanks is the secret of victory, and in order to inherit it, at the end of our prayers, we began to offer a "prayer of thanks" as a blessed household to Holy Mother Han. Even in sickness and in holy communion, we must give thanksgiving. Our passions today are also meant to make us more prayerful, more one, so we must press forward with thanksgiving. Gratitude because it casts out our evil fortunes. If you work hard with this kind of heart, absolute executives will occur by absolute Zen spirit.

A time is coming when the underworld who walked the path of martyrdom will take charge even though carrying the cross but still infinite glory, even beyond the river Jordan will be infinite glory. MIRACULOUS AFFAIRS YOU HAVE NEVER SEEN BEFORE WILL HAPPEN. That is why our faith must be entered into absolute faith. Don't doubt or be anxious about this passage. With absolute love and absolute obedience to your mother's words, we can become our church, food, united with Holy Mother Han. Holy Mother Han's way must be glorious. We must all be one. Mobilize even the spirit world and become one, mobilize even conscientious righteous people and become one, and the dormant mouths of years come back. It is when your father is sent out and the work of dreams, the work of revelation, and the work of implication will arise.

"Pray for your father that he may go forth. Tenshingen prayer is important. " is emphasized over and over again. because it is the roots of faith that bring down deep. The 40 Shushi devoted the seishin of Tenshinshi and deepened the roots of faith. Today night, I cry out to the bottom of my heart and pray for a time to experience, experience, and bodies that our Heavenly Father is alive.
