### Summary

Today, at the opening ceremony of the training meeting, they departed by reciting the Family Alliance Oath, believing that the students of the shugen students can promote progressive development towards the unification of the subjective celestial world and the subject terrestrial world. This training session was chiefly managed by Noshin-sama, and the second and third generations who were entered into the spirit world, including Koshin-sami, unite their feelings together. Not only do you attend training sessions, but also do you feel that Noshin-sama Koshin-sai are always with the subjective heavenly world, and you can do it not only with the training sessions, but you can also be surprised if you feel that both praise and

### Father's message

"During this training period, let's just go forward with the love of Holy Mother Han, giving thanks and joyfully with the spirit that we are one brother and one." There are conflicts that are difficult to understand because of different countries and different language cultures, but only true love can overcome them. Pure Waters who live in memory of Holy Mother Han, direct descendants of our Heavenly Father, who are true love, we are one. If you consider the connection you make through training, you will become friends forever who will help each other fly. Tonight, Tenai Shoshi is touring the world, directly communicating the love of Holy Mother Han. If we searched for the youth of the world and went ahead for our own growth, we must feel the love of Holy Mother Han directly in your mother's womb and in my office, Tenshinkai. And spend some time deciding to move forward as one with Amaishoshi. Be the salt and light of the world by becoming pure waters reborn as true children in the 13th year of heaven. "We are one brother under our Heavenly Fathers, and we must move forward in respect and love to each other as children of Heaven, joined by true Fathers, and become the hope of true Pure Water."

Tenshin Praise Group praised Waymaker, but praising is one of the important programs in the training. Because now is the time to live in heaven. Heaven is the world where we give praise and thanks to God. This is a world where every individual will sing, smile and dance praise God for his life and eternal love. God wanted the real world of creation to be fulfilled through man.

True parents lived in praise all their lives. About 20 days after he was released from Konan Prison, his father wrote two songs, 'Shinoka no Shinoka' (New Song of Encouragement) and 'Glorious Gift'. A song called "Holy Communion no Megumi" that you all try your best to praise. He who receives the most praise from now on and forever is the true Father and Mother. This place is a place of praise, Noah's ark, and in the womb of his mother, so the youths are the most protected place in praise during the summer training.

How glad we must rejoice when the true father and mother comes to the land.

From true paternal sutra, "No relative nation appeared in this land befitting God." If such a man could appear in one country and stand in the position of true fathers, God would have gladly made joyful thunder and lightning in the air, even by helicopter moving the sun and moon. For the first time in history, after searching for the location of the lost Adam, taking the position of the true master of love, receiving the mark of the true father and mother from God, living and breathing air in the same era as you all, I must say miracles among miracles. "

Father said, "I lived my life praising your mother instead of God, and I admired her with the masses. It speaks to principle. "I've been praising my mother all my life. 14 sacred paintings and pictures of Korean national epic poems were displayed at Tengu-gu Shrine, so that all the people who come to visit throughout history would praise their true father and mother. "When I go into the spirit world, I must account for it so that there is no trace of corruption in this world." So that everything that sighs may praise the true Father and Mother. Even to God, even to religious sphere, even to Satan's world in the third world, even to the saints Kentetsu and their descendants in the spirit world, must praise the true father and mother." (True Paternity Sutra). That is why heaven will be. Heaven is the place where we praise our true parents. Your soul and body should praise the true father and mother. For true fathers to receive praise, they must have children to receive praise, and food to receive praise. It is said that every household must become a household that receives praise.

On March 20th, 2017, at the meeting of the pastors, my mother said, "I will make Tenichi Kokuzoku in this ascetic monk," and now she is Tenju, saying, "I will be happy to be proud people who can enter there." For millennia, I will make it so that your descendants will say, ""My fathers are proud, grateful, grateful, glorious."" "We live each day a thousand years to be so glorified. The most embarrassing person in the spirit world is someone who has committed parenthood. What happens when you have received so much love, but you become parenthood to the true parents of humanity, who are the main subjects of that love. To enter the kingdom of heaven is to receive the mark of a lionship before the heavenly father and true father. It is necessary not only to decide to become a son and daughter, but also to receive the seal of recognition of a true father. Blessed households with heaven, and the households shall be sacred to complete the citizens of heaven.

True father and mother are the authority to forgive all sins. This is the mother who believed and participated in the sacred drinking ceremony and forgives everything cleanly, and wore white clothes to Holy Mother Han, and grants me grace so that I can be a people who can enter the palace of Tenjiku. And yet we are the problem. How great is the blessing of a mother who is the true father who has the power to be born as a child of the heavenly father, and in that providence, transforms through her belly. Those who oppose the Holy Spirit cannot receive forgiveness. We must become one with Holy Mother Han the Holy Spirit. It was said that Tenshinini was in her stomach and was the cord of her mother. Tenshinzai is the final enlightenment and truth.

"I overcame all difficulties because I knew that the provision could only be completed by the true mother of my only daughter. While waiting and waiting I had to show them, I made conditions to return to the seven nations and continents looking for the flock that would join me in a position of nothing. "This is the mother who walked the seven-year journey through condemnation and slander. Mother triumphed over all things with unyielding faith. Finally, everything that had been condemned was reversed, and everyone came to respect and admire the Mother of Heaven. If you work together with your mother and work harder, you can win faster. No one has ever won greater than true fathers. Let us give thanks to the true fathers and mothers, and pray that this will be a great time of praise that the spiritual world will resonate.
