Good morning to you

I hope you're doing well

1365th Tianxin Garden All Night Be honest

Summary

When mother's are difficult and difficult, we must stand together. We are tested and out of trials we can become stronger. Heavenly providence has always seen me advance to higher heights when I set up a standard for meeting Heavenly Parents in the midst of trials. Exactly how the shrine students are showing us the results.

From a Christian pastor in the USA who supported his father for a long time, "Now we stand by your mother in firm faith." I scream in the rain, wind, windscreen. Here we are. We try to protect your mother with our kind prayers and pray that our worship will give her greater strength. "I had this feeling. When Christian pastors are like this, we celebratory families, leaders, and the second and third generations shouldn't be resting in our dignity. You must have a position of being completely moved and quiet.

In the Tenshin Weekly, I was able to see a lot of heavenly miracles in Kami Japan. Heard the miracle work of Nam Kyungsung, Pastor An Yeong-seop, who recovered from a near-dying situation. Those who

cannot be sure of the spirit world now, please experience and be convinced through prayer. True paternal sutra says, "There is absolutely no denying that the spirit world exists." Because if you try just a little, you can experience it. Who believes in a unity church where a person who has been long in joining unity church, they are unbelieving and opposing without experiencing the spirit world. However, if you don't believe without experiencing it, the spirit world will hunt you down so that you can't live like that. Therefore, we cannot deny the fact that the spirit world exists. "It is said. But nowadays there are many people experiencing the spirit world. How many patients with schizophrenia. How many hear the voice of demons? This also allows evil spirits to experience the spirit world first, cast out evil spirits, and furthermore, a gate is opened where they can talk with saints and interact with Heavenly Father and Heavenly Father. "If you awake in the Spirit and Truth, pray and give thanks for everything, you will hear the voice of Heavenly Father and you will feel like a war axe." "The phrase was confirmed the day before yesterday. Some people listen to heaven's message like a war axe this hour. Be able to hear through your voice in many people.

Last night, a message from Tsushin to Shuyo students: "Young people who are dreaming, do you know how great value it is to draw your dreams?" How far do you think everyone's dreams will be valid? Dreams don't expire. Joined until eternity. If there's an expiration period, it's probably the moment your dreams are accomplished, or when you give up. The proof is the true Father in Heaven and the true Father in heaven and earth. Our heavenly father, who can never give up on achieving the true dream of creation, is our true father and mother, who is constantly moving forward in the heavenly world and on the earthly world. Everyone, I have a dream too. Creating art culture that glorifies true fathers. To create our pure art culture that the heavens are pleased with. Our art is to create cultural art that can create a conflict of feelings so powerful that it can turn people who have lived corruptly into gods.

The monks in the spirit world are still being done. I've been drawing my dreams even after moving up to the spirit world, but the reason I'm able to move on from the spirit world like this is because I've been following my dreams on earth. If you eventually dream on earth, especially the closer you get to the spirit of heaven, the more you can achieve that dream in the spirit world. Do you have any dreams? If you have

a dream, where is that direction? Search for the dreams of everyone who can once advance for heaven. Add the spirit of Heavenly Father to the dream I still have. Then the amazing power of heaven will be mobilized, and your dreams will surely come to pass. Why, because the purpose of the dream is not in you personally, but in heaven. Even if there will be a day when you want to give up on that dream not for me but for the sake of heaven, when you rise up and move forward, amazing favour and miracle will happen with heavenly spirit. The witness is the true father and mother of heaven and earth and Holy Mother Han on earth.

Mother is always living out her dreams. That's why your mother looks young. Always have a dream and never give up. Don't be disappointed if you don't have dreams. During this period, please share your spirit with Pure Water youth all over the world, and move towards the power and search for it once. Heavenly Father, ask me what kind of dream am I having. If you pray and do your best, you will understand your heart. Naturally started to search for my ideal home. Everyone, by unfolding your dreams, your future descendants will succeed in your generation, and your dreams will become the hope of the world. Let my hands restore them before heaven the contents that have been defiled by the fallen culture of the world into dreams of pure youth. They will be fulfilled in heaven. Don't be discouraged when you are tested. The principle discourse is clearly written. Whenever God wants to show grace to a human being, he must be tested to prevent Satan's accusations. "

But no matter the trials there will surely be a way for life. You can all know the experience of your father going to work. If 60,000 people will experience the Father's dispatch, just as He made new history by sending Jesus to 120 followers in Mark's attic, they will overcome all the challenges of the world and act in victory. The moment they entered the Tenjiku Shrine and heard the voice of praise, while performing miracles, the world leaders said, "Holy Mother Han, we will protect your mother." I'm only on my mother's side. Don't worry. "If we are mobilized, we will become more united and explosively inform the whole world of Holy Mother Han, and become one with the true fathers and mothers of heaven and earth. I am united with the hearts of Heavenly Fathers who are alive today, and I pray that this is the time to receive the ability of Heavenly Father, Noshin, Koshin, and Grand Mothers.
