Summary

When you get a sword or body appear with all your diligence, you pray without being aware of the people around you. If you work hard, you will fall from heaven, so if you grasp it and pray carefully, it will become a lion, and if you continue to work hard, it will be piled up like a mountain, and absolute good spirits will always be with you. If we continued this kind of sincerity from the inception, we were able to expand the providence in the whole world with divine spirit and truth. As your mother said after your father's consecration, "Let's return to the Spirit and Truth," the only way for the church to be restored is through the Spirit and the Truth.

Testimony of a Resilience Academy Student

Before high school, he became depressed, left the church, lived in the world, suffered panic attacks, and trembled with unbearable fear. I confessed my mistake to my mom, but I gained strength from her words "I still love you the most" and started participating in all-nighters together. Feeling beneficial from the

praise of spiritual trainees around the same age, I experienced Heavenly Father and Mother appearing in the form of light. He decided to return to his parents and participated in the training session, and he embraced the love of Heavenly Father with all his body, and the more he devoted himself, the greater love he felt. My Heavenly Parents came to visit me, so when I decided to visit my Heavenly Parents and prayed to them, I had a surprising spiritual experience. After the training session, I entered the academy hoping to repay my mother's blessings. Whenever you are in trouble, you will hear your father's voice saying, "You must become one with your mother." I deeply understood my mother's feelings and decided to be able to repay her quickly.

Mother told me that to be a leader in this era, one must go through spiritual experiences. You have to be a spiritual experience and not just a mind understanding. Two generations are noble people. You learn to discover the value of two generations while practicing your spirituality. If the two generations who searched for this way do not take advantage of the sins of the world and become leaders with all their sincerity, advance with divine spirit and truth in the five Oyo and six great provinces, and build a church like the real holy spirit and mother's bones, the spirit will come naturally.

That voice when we shout "Aboji Moni" is a cry in substitution of all our ancestors who never met their true parents and went to the spirit world. Even to the central spirit that is playing a part in severing your relationship with heaven, it must become a cry of "Aboji Moni" to allow you to meet your true father and mother. Just shouting "Aboji Moni" will surprise you.

Since it is the "major job" for all the spirits who have ever been blessed to come down to help the earthly people, they must join them on earth and allow a resonant affair to arise. The more earthmen gather, the more officers can be done from the spirit world. In this major task, over 100,000 people must gather their best and become one with their mother. In the golden age of provision, when your mother is going through difficult times, you have to prepare and believe that this time's major role is more important than any other time.

Only the words of Mother: "In the future, to raise your faith life and your mood standards, you will see a remarkable growth and development by how grateful you are to be before Heaven through this practice of Seihei. "This is where you can feel what the heavens do together." (May 2016 Spring Term Daijiji) The only thing that you can see growth and development according to the degree of gratitude and loyalty.

This time, the mother gave it the name "Special Training for New Beginnings for Peace and Peace Opening Ceremony," and Holy Mother Hanshin's mother is conducting special training for direct main pipe. Special Seisei 40 days will begin on September 1st for all foods in the church. During this time, I will make a prayer note and send it to the site every day. Meet the one.

"Holy Mother Han's new departure 40-day special activities for the mother of Hanjin started strongly today, July 10th, (Yangki 9/1). Through her message on the departure Sunday, the true mother gave comfort and strength to all the blessed families, and she spoke the truth to the world. As the voice of heaven for the 40th day special activity, we will have time to pray for 40 days in our hearts. Every morning for the next 40 days, I will share and give away a prayer of peace for Holy Mother Han True Mother. I ask that all you eaters pray for us to become one with the true Mother. "\

Prayer of Peace for Holy Mother Han (September 1st) "It is a noble day to begin the 40th day special activity of a new beginning for the true mother of Holy Mother Han, the true mother of heaven and earth. To all the Korea blessing families and Shokuchi, thank you very much for your support in helping my true mother reach the golden age of her life with one heart and one intention. After 6000 years of providence history, grant us the spring of providence, where we can achieve heaven on earth for the first time after our decline. You do not know how great a blessing it is that we are able to live with our Heavenly Father in this blessed age. I pray that this will not end in our blessings, but that all mankind will be fully devoted to creating a world of peace as one family to Heavenly Father. Throughout the 13-year journey after the Tenichikoku Kigensetsu, I would like to express my gratitude to the true parents who finally gave me a life in heaven on earth where Heavenly Parents directly governed and lived in the realities. Especially not only our Heavenly Father, but also our Heavenly Mother's phase and value, granted us the highest time of mercy.

Heavenly Parents, please guide me so that the Republic of Korea, which is dearly beloved, can play a central role in the unification of the Korean Peninsula and world peace. In this era of living in the realities of Heavenly Parents, false facts about the family association are being spread, causing concern to the true mother, and I am sorry forbidden. May all the people of the world understand the true parents who devoted their lives to fulfill the ideal of permanent peace for Heavenly Parents and humanity. We believe that everything true parents accomplished is simply for the sake of Heavenly Parents and for a world of peace. I am confident and grateful that our devotion, prayers, and devotion are for the fulfillment of the wishes and will of our Heavenly Father. Guide the Republic of Korea, chosen and blessed by Heavenly Father, to fully fulfill its mission as the elected people, and live a life of gratitude and love as the leading role of world peace. I am grateful for all the blessings today, and I pray that you give me strength and wisdom so that we can live with witness in our lives to the words of our true father and mother, who guides us through the golden age of heaven. I sincerely pray for the success of my true mother, and I offer all these words of thanksgiving to Holy Mother Han in the name of the blessed family Aju"

From now on, I pray the prayer sentence that will be released daily, and I pray that we will be fully united with Holy Mother Han and allow a miracle worker to happen. I pray that this night will be a night of prayer and devotion so that the absolute good spirits who help Holy Mother Han will reargue on earth, search for the righteous, and move towards the unified world of God in Korea.
