Summary

I wonder how hard it is for your mother now and your father looking at you from above. How sad and painful our Heavenly Fathers miss you. If we are on the path of hardship, our hearts are at ease, and if we are in a comfortable position, we will not be able to resonate with our feelings. The most important thing in earthly life is to embody the feelings of Heavenly Parents and True Parents and make a point of coherence. When the frequency and waves of love meet with your father and mother, you are able to emotionally attend to your father's order, and you are in a position where you can see your father immediately if you call him. Although Adam Eva had direct conversation with the Heavenly Father, he became alienated by being corrupt and preserving sin, he couldn't understand even if he screamed, he couldn'T understand even if he taught him, and he learned all the principles, he became unable to understand the feelings of Heaven. Mother won the Seijin of the Imperial Tomb and gave us the grace to inherit the Imperial Mausoleum and enter the feelings of our parents if we serve Tenshin no Seijin. If you sort out the central spirit that seeks to block the bounty, enter the spirit of Heaven, Heaven will give you

the ability.

Proof of spirituality

Feeling the love of my Heavenly Parents deeply helped me to love my father, whom I held a grudge. He was raised by his grandmother and received blessings, but his eldest daughter's eldest son continued to drown himself in drinking, so he felt the love of the heavenly father, who looked at him as pitiful, and he will be able to forgive his father. I have the surprising sense to know that if your mother is heartbroken, your Heavenly Father is even more heartbroken. After receiving the pain of July 18th, he wanted to minister for his mother, and he made a strong decision that he would regret it in the spirit world if he didn't do it now, he is serving at the Spirit Academy. The greater the trial, the stronger the young woman with compassion. How grateful is it to have a girl who doesn't just spread the news as an onlooker, but has a determined heart and determined to move forward.

Second Generation Testament of Serving in the Academy of Spirituality for a year (who my sister composes and sings for me in Modu)

When my mother and Kaoru came to the Lyric Cafe, I felt a beautiful scent approaching in the wind. I tried my best to create a fragrance that would allow all children to return to their true mother's bosom and feel that they are with their true mother at all times, so I made scented candles and brought them. When he felt difficulty, he prayed at Tenshin, and Noshin-sama encouraged him, saying, 'Try having a dream is of great value,' and he created a work that filled his dreams and feelings of the spirit world while talking with Shii Kidai at Tenshin-ni. If you light a kiln and smell the scent coming out, you can enter Hongo's land, and cross time and space to go to Aboji's place and Noshin-sama's place I believe this is

another one of the amazing heavenly revelations.

In this day and age when the gates of heaven are wide open, there are surprising and dire developments if you get the assistance of the underworld. There's been a lot of people coming out to feel it at the academy of enigmaticness. The Modu team created 100 songs before the entrance ceremony, and made 100 kinds of recipes at a cafe in Kahei and entertained people. Heaven is sending down wisdom. From now on, if we who are in Heavenly Parents are devoted to our children and grandchildren, and the kingdom of heaven will be achieved in tangible ways. Amazing times have come, when you all work hard with the heart that you must transcend limits, you will act in the spirit world.

Father's special message for important matters

"This time, the first major job is the first major job after Heavenly Parents entered the Tenichi Seiden." A major role is a big celebration of the spirit world, so all the absolute good spirits are mobilized to make a new history. I have prepared all this grace, but how much will it hurt my heart to look away? How far your mother came alone for a dozen years. During this Holy Settlement period, make a prayer to decide what to accomplish for your mother. Pray for your father, pray for your mother, that's what I ask for. ""I'm going to do this for your mother. "Father please dispatch," and I will dispatch immediately. Comforting your mother, I earnestly hope that I will be a major role in protecting her. Don't miss out on this major role of the underworld. I will definitely do more than 100,000 names. If we don't get more than 100,000 people at this critical time, I worry about what will happen in Korea.

If 100,000 people receive major duties on earth now, 100 times 1000 times the absolute good spirits and the angels of heaven will do major duties all at once on earth. Absolute good spirit requires the help of earthly people in order to perform a major role in which all mobilizes, but what a great blessing to be able to help them by being a receptionist. Every evil fortune on earth must be sorted out. What if we can't do our best at this time? The responsibility of the elected blessing households during the Heavenly Kingdom Period should be to participate in four major duties in a year, and only the mother's word that they should participate in the whole world's food. If circumstances are difficult, I will prepare the foundation so that you can participate if you pray earnestly to participate. If it's difficult by all means, participate through video, even through proxy. The major role is the blessing of daily all-night devotion and weekend training sessions to gather and pour into three days, and it acts as a trunk by deepening the roots of faith. I pray that you will be able to speak openly, 'I have served my whole heart', when you lay down your roots in faith and protect Holy Mother Han. ""\

I hope we fill the World Center with a bang, that our cries will discern all evil things, move the spirit world, usher in a new era with new powers, and do our best to serve as a major role in showing Heaven our stance that we are different from before.
