Summary

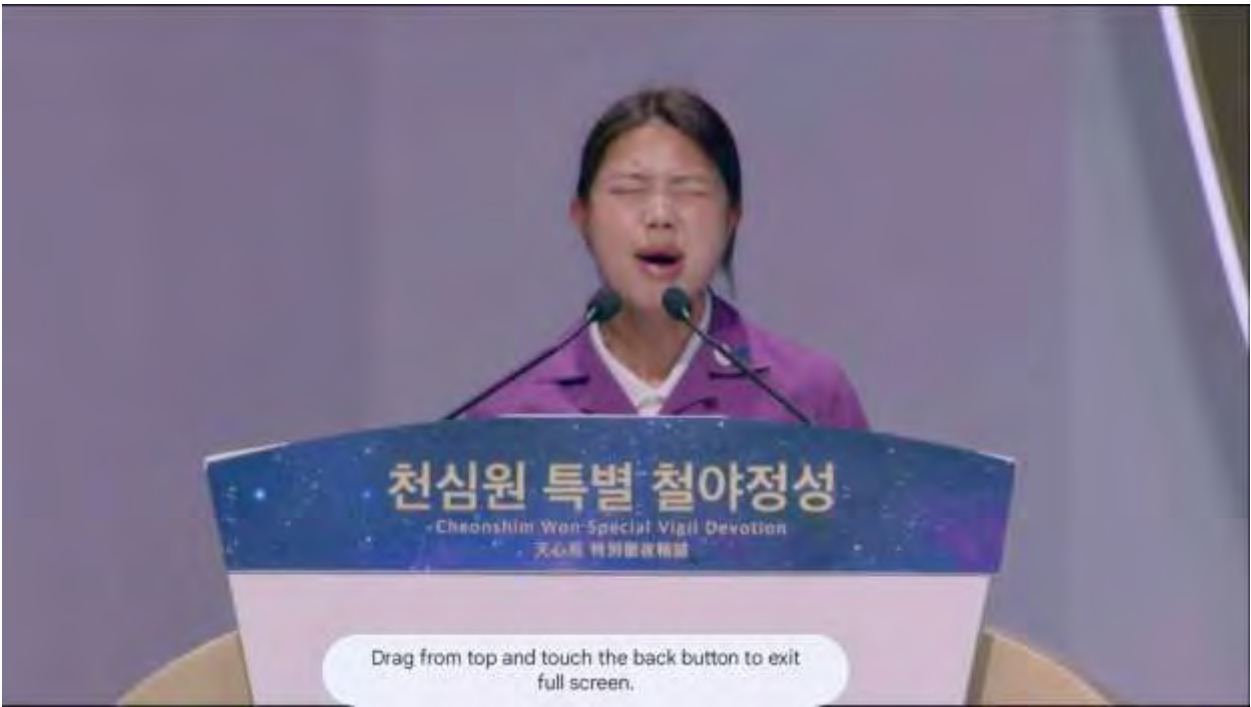

Everyone went through a lot of hard work. Difficult and difficult things make us feel better. If you make your mother easy when she is going through a difficult time, it is the opposite of hard times. Thank you for filling the World Center with that kind of eligibility. For this important job, Heavenly Parents, True Parents, Nishin-sama Koshin-sama Daiba, and all the absolute good spirits really worked hard. Thank you to everyone who made this simply saying, "Be sure to take care of four important duties a year." During this period, I was told to pray a resolute prayer for my mother rather than for my father, and I was told to do a major role to comfort and protect my mother. If 100,000 people were received on earth during this important period, it was a great role with a hundred times more than a thousand times more of the absolute good spirit would do a major role on earth. It was said that one of the responsibilities of the elected blessing families was to always participate in four major duties a year. This was fulfilled and 103,58 people were receptionally accepted. This is the first major role since Tenjongu-gu Tenichi Seiden entrance ceremony, and it should be surprising more than any other time, since it is a major role in which

heaven and earth unite and establish a new era of peace.

This year 2025, New Year's Day is welcomed here at the World Center, where the True Mother gave a historical blessing, saying, "13 years of heaven living in honor of the Creator Heavenly Father and Mother, the whole world blessed families should become true children of Heavenly Kingdom who fulfill their responsibilities as elected people who become one with the True Father and Mother," and emphasized that they must definitely show heavenly life through diligence and practice. He also blessed us with another saying, "Pray a blessing prayer in the name of the blessed family name associated with Holy Mother Han." There is much evidence of how spiritual power Holy Mother Han is. Because the absolute good spirits work with one thought and one heart for Holy Mother Han, the hidden Heavenly Mother entity.

At the entrance ceremony of Tenjongu-gu Tenichi Shoden, he reads the praises of his life. "I owe my unlimited thanks and glory to my true mother, Holy Mother Han, the first and only daughter who has achieved a truly surprising and miraculous feat." You remain the mother of eternal peace to mankind. An eternal true mother is an eternal one-on-ma. Am the Lady of the Eternal Heavenly Father. Forever be the entity of our Heavenly Mother on earth and in heaven. " reported.

Mother opened wide the gates of heaven and said, "Creator Heavenly Father." We have waited for 6 thousand years due to the downfall of mankind to reach this day. Thank you Heavenly Father. Thank you. I'm sorry. But now you are the true master of this earth. Pure Waters going to the world to let you know your heaven on earth through many blessed homes by True Parents. Heavenly Father, embrace and love your children as much as you will from this day forward. From now on, this world will be arranged one by one under your control, and the world of one family of mankind will be unfolded in true love to the

Heavenly Father. "and prayed for. I wish that Heavenly Fathers embrace you all and experience being loved.

The gates of heaven are opened wide in the name of Holy Mother Han, and we have to live a happy world of freedom, peace and unity that we have never experienced before, but we are hitting the winds of trials. Every day I am bombarded with negative speech. In spite of all these difficulties, you have all persevered well. To persevere is the hardest part. Just as our father and mother endured, we must continue to concentrate the driving force of resentment as we endure and move forward. No matter how strong the wind blows we will not be shaken. We let down our roots deeper than the olive tree, so our church will not perish. A church built not on sand but on panel. The more you hit the wind, the stronger you'll recover. Trials and pains here, later becomes a blessing. There is a return grace in decline. It is the way of decreasing that heaven is taken after being taken away. We have had many crises in the past. After your father was released from Seidaemun Prison, the church developed exponentially. After being sent to Danbury prison, 7,000 Christian pastors visited Bonneckol Sanctuary and cried their eyes out and testified to their true fathers. We shall surely triumph.

Pure waters reflection and supplications will be heard. The word of your father is fulfilled. "If a united church is in a position to overcome challenges, it can develop exponentially." This word has been fulfilled in the land of Seihei that the young people of the world can gather and receive education, and the blessed families can receive training and advance in the world (1997.3.10)" Tenshinshi Seiji is not down to earth. The voices of Tenshinshi prayer are increasing. "Precious Heavenly Father, hear our supplications. Protect the mother of the only daughter entity Holy Spirit. Patronize Holy Mother Han. True fathers please go and act. Shinshin-sama Koshin-sama Daibo-sama absolute good spirits do the role. The Chewan Navi troops of the 2nd and 3rd generations who went to the spirit world at a young age should also serve as well. "and prayed with a tangible prayer.

This World Center is the Holy Sanctuary where the True Father ascended to Heaven 13 years ago in a Celestial Consecration. We should frequently hold all night prayer meetings at this place to be a place of great restoration. If we fill up this World Center and do our best in Tenshinshi, Father will be sent to open the 21st Century Spiritual Age. This became the place for the Great Reconstruction Society, and the Divine Unity Korea period and the Divine World era began. We can do it if we are determined. We will surely win. Mother said, "We will not fail." Success is all I need. Victory is all I need. What's scary? When you openly become one with true father and mother and only daughter true mother, miracles can happen. " said. Therefore, I want you to advance in the Spirit and Truth, become one with Holy Mother Han, and show your achievements through Tenshinshi Seijin and practical life. You have to be in this place where you promise it will go that way.

April 15, 2025 "The first thing I said in your Father's consecration was that I would return to Spirit and Truth. From now on, through future generations we must move forward in one organizational system for the return of the nation and the return of the world." that we have nothing to fear if we abide in the Holy Spirit and move forward in the Spirit and truth. We should be able to see that the unity church grows horrible. The office of the living Heavenly Father is arising in our church. Become one with the spirit world and receive assistance from the spirit world, you can make qualitative changes. How I wish this will be a historic hour when we stand boldly as masters of the kingdom of heaven and receive the amazing grace of the entity Holy Spirit.
