Good morning to you

1386th Tianxin Garden is honest all night

Summary - The 13th Anniversary of Heaven and Earth True Father of Heaven and Earth

What does Father do to the Spirit Realm? "In the spirit world, everyone hopes that your father will come soon and collect the spirits." If I go to the spirit world, it's all mobilization. We tended the earth, now we tend the heavens. In order to create a unified celestial world in heaven and earth, one must go to the underworld and start a revolution. For that reason you must be united together with your true fathers on earth. Those who don't know the spirit world are infinitely pitiful. You can't even talk bad after you know it. How can one make way through a road that is blocked by many? If I go to the spirit world, I'll make a big revolution. What is cut off will be cut off, and the road will be clogged and make a tunnel. Thousands of years of history will fly away if I go. Those who don't know are forgiven, but those who pretend not to know must be held accountable for their words. (There are people who listen to principle and live by pretending not to know, but they will definitely be responsible). When you wonder how high and precious the view of heaven is, then there is no way to bridge the gap between how insignificant you are in the proportion. If I go to the underworld, I'll start a revolution. If you can't follow your father on earth, it doesn't matter. How many steps and hundreds of steps you have to go through. Such a revolution awaits. That's why we send those going to the spirit world to earth. "(True Paternity Sutra) This movement is the work of Tenshinzai to create this wind.

"The spirit world is watching which churches are going hard today. We've entered an era where national standards have become more than 70% of the time, when viewed rationally. Therefore I say, bless your household. "\

"A true father worked night and day all his life. I also lived by my true father and never slept more than 3 hours. So, you've been tired all day. Now that I've been to the spirit world, I'm even busier and moving through time. " (Mother's only saying)

"Today, the 40th day of worship, is the starting point of a new providence. The True Father has been around the spirit world for the last 40 days. He met characters who appeared in the history of regulations, and directly understood the situation of God's creation of heaven and earth. I also spent 40 days preparing myself with the same feelings as my true father. It became my thoughts at the same time as it was true father's thoughts, and it became my thoughts. From now on we must move forward with one mind and one mind and one will, centered on principle. "\

"There will be no interruptions for us. There is only progress. I pray that all the true households of the whole world may fulfill the mission of the Godly Messiah through absolute faith, absolute love, and absolute obedience, and become victors who will inherit the great grace and fortune of heaven. Heaven has blessed us with tremendous blessings. The responsibility must be completed by the two generations. "\

Many people in the first generation have memories of their father and mother, but the second, third and fourth generations have little earthly memories of their fathers. What happens when your mother goes to the spirit world? We must open a way to communicate with our father while we are here on earth. This is the most important thing for Tenshin no Sori. It is said that your father's office is Tenshinni, and you have to devote your sincerity at Tenshinni and have a conversation with your father, just like your mother did during her 1095 days at Hongo Gifu. I was told if there is a problem on earth, solve it by mobilizing the

spirit world and show the results of diligence. Gradually, his words were fulfilled, and the voice of prayer grew higher and higher, and tonight 46,000 people prayed with one thought. There is a role happening to have sentimental dialogue with your father, listen to your father's voice, and give revelation of how we should live in this age. Father who makes ways and shows miracles.

Message your father sent on September 7th

"The moon floated beautifully, missing my mother even today. The last figure of my mother before she ascended to the heavens comes to mind. Omma sorry for the hard road for 13 years. The story of ""Let's take a break after this work" has been unfulfilled until now. Because I know the reason and circumstances why Omma runs as hard as she can, even though she wants her to be well more than anything else, I also follow that Omma in the spirit world, moving from place to place without a break, continuing to do spiritual rearrangements. Holy Mother Han, who became the entity of Heavenly Mother, you were the first in human history to fulfill the dream of Heavenly Father. So blessed to be your husband. I was with Omma so I could live until now, and I can still live and serve here. I came here before, but here I am with my mother with the people who care for the unpleasant promotion, promotion, good promotion, prosperity, Oma and all mothers. Victorious True Mother Onmanse! ""\

(After that, she came back early in the morning) and said, "I want to hear my mother sing," so I wrote her on YouTube. From where does the feeling of awfulness come out of a loving heart. And all the sadness and love comes from Heavenly Parents. Gotta start with Heavenly Father's feelings. It's a night when I wish I could miss my mother more. You don't have to think about me at this time. I will go to a child who loves his mother rather than someone who loves me. I let your mother walk too alone. Wish I could hold your mother's hand longer. Father wants to be with mother and misses you. Love your mother more than love me. Resonating with my mother's feelings will resonate with mine. The story to be told to the mouth of the whole meal on today's Holy Day is ""Be one with your mother, and be a mother's keeper, and be a child who fulfills your mother's dreams""

No need You protect your mother based on how much you become one with her, and you can grow. The key to the gate of heaven is the spirit of Holy Mother Han. If you understand Holy Mother Han's feelings, you can see good past, present and future. That's how your father feels. Thank you for praying this way today. And celebrate the victory of a major role. I wish for prayer, diligence, and practice without interruption. Results must be shown when you put your diligence into it. And if you want to show results, just a little practice and challenge, the spirit world can play. We need practitioners. People who can testify their mother to the world, people who can accomplish something for her. You have to go with the spirit world to be that kind of girl. Seeking the wisdom of heaven and being assisted, that is Tenshingen. The shortcut to achieving your dreams and finding your dreams is truly Tenshinka. Always a place where I can interact with my father, converse with the spirit world, and that's where Holy Mother Han's feelings are. With that, you can always feel your mother's feelings, let's protect our beloved and struggling mothers together who are always waiting for you. ""\

This major role eventually surpassed 104,000 people. This is the result of repainting the past record, aiming for 144,000 people for the next major role. Mother wants me to have a great recovery meeting at the World Center once a month. Each one of us must continue in prayer and practice with one heart in order to welcome our Heavenly Father and accomplish his will. Father's spirit is already in each heart today. When you pray while calling on your mother in that spirit, you will experience a remarkable ministry.
