Good morning to you

1391th Tianxin Garden is sincere all night

Summary

If the devotional prayer that started at Tenshin-ni goes beyond Amagi Junrin Palace and joins it to the World Center, it can move towards the era of Divine Unity Korea. Diligence in all churches worldwide and you will see results. Tenshinko is hope, the most precious gift of this era, the heavenly comprehensive gift set. Tenshinko is the key to solving problems. Individual problems, family problems, clan problems, and now national problems. Work hard with a single heart and you will see visible results.

There was concrete evidence through the president of Sendai Archbishop.

After 15 years of searching, the person to bless and couldn't be found, he was guided to offer Tenshinki Seishin and received blessings. I hope that if a child receives blessings, Tenshin no Seishin.

A person in his 70s was told he had 10 days left to live due to liver cirrhosis incident, but he miraculously recovered after praying for 40 people 10,000 times every day.

3 uterus bleeding is scheduled to operate on, but then there will be nothing to operate.

5 After undergoing spiritual training, his son who had been dormant for 10 years participated in 40 shu and developed deep roots in faith.

There was evidence from the president of the Kitanagano University, but if he had not devoted himself to Tenshin-ni, he would have already joined the spirit world. How important it is to dissolve and rearrange the central spirits. Without the body, spirits cannot get rid of sin and cannot grow. Spirits can only grow by borrowing earthly bodies, but if they fail to revive them and repeatedly argue, they become evil gods and take control of similar spirits. Before you know it, you become possessed by a demon, and you live in sin all your life. After calculating all the causes, the true father and mother gave us a surprising blessing to be reborn again. We met our true father and mother again. Our ancestors were not Adam Eva, but true fathers. We live in such a miraculous era where we can be reborn through true parents, become the ancestors of new humanity, and the five-colored races become one brother and sister, mourn with your mother when she is sad, rejoice with you when she is happy, crush with you when Noshin sorrows, and cry with you when your father appeals. Even if you are blessed and reincarnated with spiritual flesh and become a direct son and daughter of Heavenly Father, there are too many spirits behind trying to revive by borrowing their flesh, so the only ones who can influence the ancestors have gone through their 430s. Another important thing is that all the dismissed ancestors must also receive their vitality elements on earth. For this reason, the Messiah of the clans must work as the master of heaven, who loves all things, loves people, loves heaven, loves vengeance, and practices true love. When we give love while evangelizing, that joy becomes a vital factor, and we are in a surprised position to complete all the spirits who seek to revive, borrowing my flesh. To think that my flesh is not just mine, it keeps all my ancestors alive, and I, mainly myself, thousands of people are heading to make a revival again, you have no idea how precious each day is. Even if you become an absolute good spirit, you must grow, but you can only grow by receiving the element of life through earthly people.

We must establish a divine nation by developing a family church movement, a clan Messiah movement. They had the names Kamikorea and Kami Nippon, but they couldn't become the real Kamikorei and Kami Nihon, so now they are struggling. What we need to organize is to organize 8 vertical families, follow the path of evangelizing 430 horizontal families, disband all the spirits that have come back to us, and complete the release sphere of heaven on earth and heaven. Finally, the central spirit is organized and the body and soul are completely released. Evil spirits are always watching your eyes, nose, mouth, limbs, and even your reproductive organ. I beat my body with praise work, but I can't get it in order unless I work hard with absolute faith. I don't know how much Satan is on the clock. Even in the course of provision, he persisted in Abraham, and he disbelieved in the midst of his descendants for 400 years, and in the time of Exodus, he had manna and quail, and Moses struck the panel twice and made a distant cause for the cross. Even though he conquered Jericho and Messiah came, Satan did not run away but nailed him to the cross. Continued after that, for 1000 years in the Middle Ages, those who received the divine revelation were witch-hunted and killed. They persistently attached the life of their true parents, and they persistently make their parents hard despite the opening of heaven. For us to win there, we need

to pray harder. You have to pray so much that evil spirits are moved. It's even more difficult to sort out domestic, clanical and national Satan than personal Satan. God Korea God Japan must overcome national difficulties, so it must be more persistent than we have experienced before. Moving forward with elation that the heavens are touched. We are entering a new era where spirits who have come back to the center of their bodies can experience heavenly life at home and clan by attending the Renjotenshurenkai at least 430 times. Then you will be able to feel the joy of heavenly life that you have never felt before.

Father's message

1400 all-nighter seijing is the basis for winning 700 twice. The 1400th episode is the basis of 100,000 people's Daiyakuji, and it's a full-nighter to decide once more before welcoming Daiyakiji in the In order to protect your mother, add 400 times on top of seishin 1000 times, repent everything you did not pity to your mother, start anew, and become fruitful all night long. Starting at 1400 times there will be a big move. There was a reversal, and after the autumn period, yakuji of the spirit world will be closely looked at. You will witness how your mother's patience and hard work have yielded, what miraculous acts will come out when the elected blessed family assumes their responsibilities, and when the spiritual world comes together to reconcile, union, and peace, how Heavenly Father's governance will come out in this world. We'll be getting better and better. When our persistent thoughts overcome Satan's world, we must fulfill the words of Mother more powerful. The fortune of the Unity Church has come, and we are moving forward without stopping, the absolute faith that Heavenly Father will be done with me, how great is the blessing of Heaven, let us praise and give back joy to Holy Mother Han. "\

There was little message in the spirit world during Jesus' life, but after he died on the cross, he appeared to Mary Magdalene and Peteros, and there are records of Jesus 11 times during the 40-day resurrection period. The fortune led to a complete fire of 120 followers in Marco's attic, and it laid the foundation for victory over the first generation of the church. Therefore, if you go to your father, who is commanded in the office of Tenshinni, and proceed with the Spirit and Truth while devoting your prayers and prayers, there is nothing you cannot achieve. If those who go into the position of experiencing the Father in Heaven who is alive and multiply like a cloud, the kingdom of God will be established in the land. Mother already opened it. If we can first enter the world and testify what our church is, then there will be a winged and flying office. Pity people in this world don't know the underworld, people who know need to take responsibility. We've known it before and through experience, but from now on we have to realize our Heavenly Father and Mother who is alive and boast about our real body, the God of the Day. If we lift our voices and testify there will be miracles like Apostle Paul.
