Good morning to you

**1392nd back to Tianxin Garden all night sincere**

**Summary**

Mother's night is important today. "Send Aboji with glorious beauty and prayer," and they started to have a prayer meeting to mobilize the spirit world through glorious beauty and prayers. At this critical time, 61,000 people in 25,500 locations worldwide can be filled with one heart, and thanks for the blessing of Amagi Shorin Palace. We are living in the Heavenly Kingdom era, where progressive development is advanced towards the unification of the subjective celestial and subjective terrestrial worlds. For today's prayer, our Heavenly Father said, "Don't worry, Heaven is in charge." But if there is anything to worry about, worry about how you will divide and overcome things that you do not understand the spirit of heaven and not fearing by Holy Mother Han. and on its foundation pray for households, clans, peoples, nation, and world."

Jesus said, "When He carries the cross, the agony of Heavenly Father who is sorrowful for this earthly providence is greater than physical agony. For ignorant earthly people, who searched for thousands of

years, couldn't understand what was true through ignorance, and couldn't understand it, even though they had true parents, the pain of feeling to leave was the greatest. We need your mother's help. Children who make decisions and move forward with their mother's unchanging feelings are the power of their mother. I've seen humans change their minds so easily that they are less than a piece of paper. But trusted them to the end, and carried their pains due to their unbelief. Heaven's mood cannot change. No matter how much this world persecute and condemn me, I will never change my heart as I live with knowing and feeling the sentiments of heaven. When you put down the roots of faith deep, what the root searches for is tempest. It was emphasized that Tenshin should be the greatest ladder whose roots are deep and never waver."

Koshin-sama said,

"How can I express my feelings in words? Today's all-night prayer will be a prayer meeting in which the whole spirit world will grasp and crush the earthly people. The whole heavens will bow down on your mother and become a prayer meeting of repentance and decisions. We will never stop, the disciples were sleeping when Jesus prayed the eagle prayer in the Garden of Gethsemane carrying the cross of heavenly grudge. Are you going to sleep this night? Or will I be the one who carries a cross of heavenly grudge and prays with Holy Mother Han True Mother, who prays for the sake of heaven and for her children? You all must have learned how important the responsibility of Jesus' disciples was throughout the Bible. What will you become? The underworld is serious, gritting teeth and flying with flaming moods. The underworld is constantly at war. We must go harder and stronger, we must not waver. Pray more earnestly in Spirit and Truth. Be faithful to fulfill the responsibilities you have been given. Then we will win, Mother is still logo praying for us who are missing. Mother is still praying and asking questions with Heavenly Parents for the future of this Korean race. I hope this hour will be the time you will hear the voice of Heavenly Father, the voice of his faithfulness, and the hopeful cry. "

It is said that in the subjective celestial world, people are holding a prayer meeting for Bosatsu with their mother's feelings. We must also move and calm with the heart of our mother and make sure that today's prayer meeting remains forever. We shall never perish. If we become one with our mother and are reborn as complete lion maidens, more sons and daughters will be breeding, and they will form clans, peoples, and nations, and move toward a united world of Korea. If we were completely united with Mother the speed would go faster. This time, those who cry with their mother are the ones who become one with their mother, and if those who become one pray and devote their sincerity, the spirit world moves. All the absolute good spirits in the spirit world and saints who have been blessed in the spirit world have already concentrated their interest in becoming a mother's illegitimate maiden. Once you are fully united with your mother, you will be able to do amazing miracles. I hope this night will be the beginning. I will never forget September 17th (July 26th), we all have to go to the prosecution and be questioned, and spend time with our mother. I wish that today will be a remarkable time for you to be completely united with your mother's feelings, united with her mother's body, and make a new beginning.

### **Prayers of Lee Kei Shing Court**

Precious heavenly parents, true fathers of heaven and earth who never stop loving. We can't look up to the fact that September 17th, 2025, another sad day to record. On July 26th, 13, where we live in mourning our Creator Heavenly Father and Mother in real body, it became time for us to bow down before Heaven with the feelings of sorry sinners. On this day when the hidden Heavenly Mother entity, the mother who

came to this earth stands before the Special Prosecutor of the Republic of Korea, we have nothing to say. Dear Heavenly Father, who looks upon it, please guess the feelings of the mother who is praying for her while also being comforted by Heavenly Father today. Please help us to feel at least a little bit of the feelings of the mother who lived through the grasp of Heavenly Father, who suffers a thousand times more pain than I suffer. How can we assume the feelings of our Mother who comforted our Heavenly Father, even though she knows the pain of her flesh and lost her limbs because of the subjective celestial world, looking at the pain of human beings on earth, and consoling our Heavenly Father? Before that Heavenly Father we are sinners who have the name of son and daughter but cannot lift our faces.

Our father, who went to the heavenly world, told us that we should decide sincerely, give all our strength, practice, shine on our motherland, and we wish, but today our inability to find our motherland, pure and pure mother stands before the prosecution. Father, I'm sorry. I confess that we have been guilty of the wrong sins. Please make sure that you can make sincere decisions, give your all, practice, and fulfill your father's words. Enable me to destroy the command. Let us evangelize with sincere determination, full power, and practice. Make me proud of my father. Shin heaven opener, Chugen, Kaishin, please mobilize the spirit world. Having authority over all the firstborn has gone into the spirit world, please govern your brothers. Do us our part.

Tenso Koshin-sama, who went up to the heavens with a calligraphy saying, 'Faithfulness, dedication to the castle, heaven on the sea, eternal rest', rose up and sowed, determined to give his life wherever he could replace his father and mother. We were the only ones who had died and died a hundred times and our bones were dusted, and even if we sang this song without limit. Let us repent, who still speak two words with one tongue, like the tongue of a serpent. The great mother who is loyal and devoted to her father and mother, who prepared in advance for us to see her at any time, we could not prepare for her, and now that our mother is going through the path of hardship like this. We have become historical sinners. Make sure you can keep your head together from now on.

Jesus I'm so sorry. Jesus, who bore the cross for heaven's sake, before this wondrous providence, who went to this earth on the foundation of the blood of thousands of Abel for 2000 years, finally met his only daughter to see the completion of the reoccurring order as the true father and mother of mankind, many times we had failed Jesus. Heaven, let us confess our sins before the many good spirits who carried their crosses into the spirit world.

Please let us repent once more before the loyal subjects of the Korean people who have historically come to re-emergence the Korean people. As a result of their loyalty, we have reached a historic time in which the true parents and mothers could come to this land and return as children of God, so when we think about the historical loyal subjects looking at us today, let this be the time in which we can set out again.

Please allow this time to repent and depart according to the standard of absolute goodness, before the subjective heavenly world, all blessed spirits. Please allow this time when the second, third, fourth generations, infants, and the Emperor's Na'vi troops, all mobilized before the heavenly providence. Please allow us, who have earthly life, to move forward with new hearts to our parents.

The only daughter, the Holy Spirit, the one-on-ma of all mankind, Holy Mother Han, the true mother, the mother is not the one to suffer the afflictions. I'm not the kind of person to be scolded. There was a severe death by your mother. Your mother has given us an account of our original sin and brought us to the

position of sons and daughters of heaven. Our mother and father walked the path of hardship for 53 years without a break for more than 3 hours a day. She gave birth to 14 daughters.

He sent his four children first to the kingdom of heaven as a feast, and went on a tribulation way that he could not weep before the feast. But Mother said that there were children with more pain than those who went to the spirit world before. She said she was a girl who strayed from her side. How can we understand that painful heart breaks through the night? How can we understand that mother's feelings when her eyes bleed? Mother who sent Abonim to the heavens and looked at the moon every night and crushed. I was told that I am alone without anyone who understands your feelings, one small needle to find in a position where I cannot open my eyes in a sand storm, one son and only daughter who understands my heart, I was conceived and won VISION2020 and finally achieved the dream of Heavenly Father.

He saw the completion of provision. The gates of heaven have been opened. Heavenly Father opened a time to reign. But since our evil fate has caused your mother to walk a hard way, let us first repent from our hearts. I hope I can blow away the evil fortune. Please allow your mother to suffer. Unite me with the Father who is with me this hour. May Father be able to act in our prayers, may we be able to go. I hope we can do away with the decline coming to this country. We must not repeat the decline of the people of Israel. Heavenly blessings must be done on this nation. This country that has been passed down for 5000 years, as a country of the fathers of mankind, we must accomplish all that is desired. Heaven bless us today that our prayers will be prayers that can move the heavens. I ask for your kindness to lift up your voices with your heart and body and pray. I pray and pray with thanksgiving in the name of the blessed family Motonori, who is only blessed to Holy Mother Han.
